

ITALIAN GUNS AT TRIESTE GATEWAY

Furious Battle Being Waged for Capture of Austrian Stronghold—Guns Claimed for Italians.

By Telegram to The Freeman.

Rome, May 29.—Both Italian guns and infantry are now pounding away at Duino, the gateway of Trieste.

The capture of this Austro-Hungarian stronghold is a difficult task, because it is defended by mountains which bristle with artillery and machine guns. But despite the severity of the task the Italians are pressing ahead with blows that gain them fresh ground every day.

The forcing of a passage across the Timava river gave the Italians foothold in the village of San Giovanni and it has been maintained since. Furious counter-attacks by the Austro-Hungarian forces, however, the fighting on Monday rounded out the gains of the Italians on Sunday and Saturday, and enabled them to consolidate positions which they regard as impregnable.

Prisoners streaming back from the Carso plateau point declare that the artillery of the British guns, supplemented by that of the British guns, have demolished the Austro-Hungarian forces and that they were dazed by the before they were attacked by the infantry.

Especially severe was the fighting with big guns around Jamiano. There it was a battle between the heavy Italian and British guns and the significant "Skodas" with which the Germans and Austro-Hungarians have reduced some of the mightiest fortresses of both the eastern and western fronts.

Italian military critics are jubilant over the success of the drive, but they are not making any predictions as to when Trieste will fall. However, the military chiefs make it plain that the Italians are in a position to fight all summer for the coveted prize if necessary.

In a sense the Italians are battling against what might be termed an Austro-Hungarian Hindenburg line, and it requires a slow process of pounding the mountain fortresses of the Austro-Hungarians to pieces with big guns before the infantry can be sent up the bullet-swept slopes.

The artillery duels all along the Isonzo river front are increasing in violence as a result of the arrival of fresh Austro-Hungarian batteries from the Russian front.

It is estimated that the Austro-Hungarians have from 400,000 to 500,000 soldiers in the narrow strip from the Piana mountain sector to the Adriatic sea.

Mrs. Albert Hogan was almost blind and had been in poor health previous to accident at O'Neil Street Home.

Sarah Short, wife of Albert Hogan, fell from a second story window of the home of her daughter, Mrs. Melbenia Crispell, at No. 89 O'Neil street, Monday afternoon, and was instantly killed.

Mrs. Hogan was almost entirely blind. She was in somewhat feeble health but was able to move around the house. It is supposed that she opened one of the windows and miscalculated the height of the lower part of the window, or reached too far up in lifting the sash. She was discovered by neighbors and by her daughter and was dead when picked up. Dr. John R. Gillett was summoned but found her beyond assistance.

Besides her husband, Mrs. Hogan is survived by two children, Frank Hogan of Olive Bridge and Mrs. Crispell of this city, who resided with her; two sisters, Mrs. M. E. Bishop of Boiceville and Mrs. Cyrus Cudney of Olive; one brother, Lorenzo Short, of this city, and six grandchildren. The funeral will take place from her late residence on Thursday afternoon at one o'clock. The interment will be in Willowick cemetery.

PROGRAM FOR FLAG RAISING

The program of exercises attending the raising of the Dorothy Freeman flag at Kingston Academy green at the conclusion of the Memorial Day parade tomorrow has been announced by Mayor Canfield, chairman of the committee on instruction.

The exercises will begin after the parade has reached the academy green, and workmen today placed the reviewing stand and speakers' platform on the Albany avenue side of the triangle, opposite the residence of Samuel M. Gray. The block of Albany avenue between Broadway and Clinton avenue will be closed to traffic while the exercises are in progress.

Mayor Canfield will preside; the flag will be raised by Miss Dorothy Freeman, who originated the plan for the flag and in whose honor the flag fund was named, and the address of the day will be delivered by Judge Clearwater.

The program of exercises will be as follows: Invocation, Rev. Putnam Cady Reading of President Lincoln's Gettysburg Address.

Rev. Wilbur F. Stove Unfurling of the Flag. Miss Dorothy Freeman Salute to the Flag. Boy Scouts "Star Spangled Banner," by the Audience, led by the band.

Address, Hon. A. T. Clearwater "America," by the Audience.

SHOT BY A SOLDIER. Sentinel Assaulted for Trying to Stop a Fight.

By Telegram to The Freeman.

New York, May 29.—Herbert Taylor, a private of Company K, Forty-seventh Regiment, guarding the Nichols copper plant in Laurel Hill, L. I., shot and killed H. H. Binderman, captain of a canal boat, during the night after a terrible struggle. According to Taylor's story, he attempted to stop a fight aboard the boat, and was attacked by the captain, who wielded a heavy iron bar. After vainly trying to defend himself with his bayonet, Taylor fired, sending a bullet through Binderman's heart.

Captain Wilson, who ordered Taylor into custody, refused to make a statement today, and informed the police the matter was in the hands of the military authorities.

Also See Cop Damaged. Charles J. Fort reported to the police department Monday evening that he had run down and damaged the car of a policeman at the corner of Broadway and Frederick street, and that he was going to pay for having it repaired.

CIVIL EMPLOYEES MUST TAKE OATH

Women Workers in State Service Must Swear to Age Under New Law—More Females Than Males in Employment of State.

By Telegram to The Freeman.

Albany, May 29.—Fearing that they will be required to tell their ages, the young ladies in the employ of the state, and those who are not quite as young, are in some instances very much perturbed over the possibility of disclosing the date of their birth under the requirements of a law recently signed by Governor Whitman.

It is not so much that they are ashamed of honest years in every instance, it is said, as the fact that they are not particularly desirous that every one should know of it, for the "sweet sixteen" charm sometimes lingers long after that period, so why disillusionize the unsuspecting public anyway.

Section 30 of the newly amended civil service law, duly enacted and approved by the governor, provides that every person employed by the state or its civil divisions and cities, shall take and file a constitutional oath. There is no clause excluding females from this duty, hence their mild excitement. The filing of an oath requires that the age must be furnished ordinarily and it is believed by the ladies that the oath they will soon be required to file will also compel the furnishing of this information so dear to the heart of the average member of the gentle sex.

It is said that the real intent of the new law, which was introduced in the legislature by Assemblyman John J. Malone of Albany, was to inspire greater patriotism and not for the purpose of making a canvass of those who have graduated from the school of life's springtime into the seminary of fall. But the fact remains, nevertheless, that ages may have to be told and the prospect is disconcerting.

Since when taking an oath, one cannot smile and demurely reply "just twenty." Alas, no. One must tell the truth, the whole truth, etc. It is said that when the question of age is discussed females do not always follow this rule.

Those who are employed in the labor class need not take the constitutional oath, all others must do so. The act goes into effect immediately, which means that the necessary blanks, or whatever is to be used when taking the oath, are being prepared.

There are in the employ of New York state more women than men. The list of stenographers is a long one and of tender years as well as those who have grown gray in the service.

It is set forth in the Malone law that thirty days after the measure becomes a law, the work of taking the oath of office shall begin. This means that some time in June hands will be raised and eyes will be downcast on that list of the sensitive ones, should the age clause be contained in the language of the oath or in any part of the affidavit.

"The failure of an employee to take and file such oath shall terminate his employment until such oath shall be taken and filed as herein provided," reads the new law. But the world is divided into two sexes, so the ladies have been unable to find much solace in it.

The provisions of the Malone law are new and the requirement is regarded as a precautionary provision in accord with the other so-called "war measures" enacted during the recent session.

A MILITARY DRILL BY U. S. BATTERY

Will Feature Baseball Games With Primrose Team on Decoration Day—Two Games With West Point.

There will be two games of baseball played at the Athletic Field on Decoration Day when the West Point Artillery baseball team meets the Primrose Club in two games. A game will be played in the morning at 10 o'clock and in the afternoon at 3 o'clock.

A military drill will be staged before the afternoon game by a battery of U. S. Artillery who will accompany the West Point team. The West Point team is one of the best clubs in this section and on their last appearance in this city gave the Primrose boys a stiff battle, the game ending in a victory for the latter by the score of 4 to 3.

Sutton and Connors will be in the points for the Primrose Club in the morning game and Williams and Scherick in the afternoon game.

MOB RUNS AMUCK IN EAST ST. LOUIS

Negroes Pursued and Beaten by Res. Agents Angered at Importations of Labor—Police Unable to Cope With Situation.

By Telegram to The Freeman.

East St. Louis, Ill., May 29.—A mob of 3,000 men who ran riot here last night, shooting and beating negroes and wrecking business places and homes owned by negroes, dispersed with the dawn of day, leaving behind them a trail of broken heads and bruised bodies. Half a dozen deaths may result.

The smoldering indignation against the importation of eight thousand negroes into the city since January 1, was fanned into flame when two white men were held up and robbed in the early evening. The news spread to a delegation of 60 members of East St. Louis trades and labor unions, who were at their hall protesting to council against further importations.

A crowd quickly gathered, and when some one yelled "Get him," the spark had reached the powder. The crowd swept through the streets, stopped and searched street cars for victims, and tried to break into the jail, where a number of negroes were rushed for safe keeping. Ambulances followed in the wake of the mob, picking up bruised and unconscious negroes.

Police gave up attempts to cope with the situation, and 125 members of two companies of the Sixth Illinois Infantry, under Major R. W. Cavanaugh, were called out by Mayor Fred Molman. The soldiers were swept from their feet and when it became evident that the small force was inadequate, Adjutant General Dickson was appealed to for aid.

General Dickson responded that he was powerless to call on the federalized guard units, pointing out that they were under direct call of President Wilson.

Dozens of saloons were wrecked in the colored district and every negro found was beaten. Many begged on their knees for mercy. Hundreds escaped across the free bridge to St. Louis, carrying bundles and suit cases.

PLOTTERS AGAINST REGISTRATION DAY

Widespread Arrests Indicated in Information Lodged With Department of Justice at Washington—Three Million Men to be Needed.

By Telegram to The Freeman.

Washington, May 29.—Widespread arrests of plotters who are trying to block registration for the selective draft army were reported to the department of justice today. In each instance where the evidence warrants arrests will be made of every individual who tries to interfere with the enrollment. Today's reports are only the first of many yet to come. One week from today the young men of the country who will carry the flag to France will enroll. And it is officially stated that nothing will be allowed to interfere with the registration.

Every effort will be made to speed up the selection of the new army. The first 500,000 will be drawn from the total registration by means of jury wheels. Exemption claims also will be passed on as soon as possible in order that the men who comprise the first army will have time to settle up their business before being ordered to report to the colors. In addition to the 500,000 provided in the first draft, enough additional men will be chosen to fill all gaps in the regular army, and the national guard unless as these organizations are at war strength by the time the draft machinery is in operation.

For example, those who have eaten the "war bread" now being served in England maintain that it is actually more edible than the white bread used in America. Made from a flour of wheat, mixed with barley and rice, the bread has a bit of a brown tinge in color, but is none the less delectable. Moreover, it keeps better than the pure wheat bread and is more satisfying and has been pronounced by persons to be more easily digested.

Upon the staff of Herbert C. Hoover, who has been appointed food administrator by President Wilson, are numerous experts who were employed by the Belgian relief commission in Belgium. These experts have had practical experience with war cookery and while they do not propose to force upon the American people any long list of substitute foods, they believe they will be able to convince the American people that many of the so-called "war foods" are really no measures of hardship, but are new discoveries in diet and foods.

CONSPIRACY AIMED AT CONSCRIPTION

By Telegram to The Freeman.

Chicago, May 29.—A nation-wide conspiracy to balk the conscription law June 5 has been nipped in the bud through the arrest of two alien leaders in West Virginia, nine in Texas, one in Seattle, and five in an anti-draft plot in Detroit, according to announcement of H. G. Clabaugh, investigator here for the United States bureau of justice. Clabaugh hinted that the "master mind" in the conspiracy might be in custody by tonight.

Five persons—two women and three men—are said to be detained here for investigation in connection with the plots. Clabaugh refuses to discuss details of the plot, although he admits he has considerable evidence in his possession.

There were intimations that the conspirators were preparing to exceed all bounds in their fight on conscription—even to violence.

The conspirators are said to be in close sympathy with, if not employed by the German government. Clabaugh said evidence of the plot has been discovered in portions of Wisconsin, northern Illinois, Indiana, Ohio, Michigan and Iowa.

The leaders will be kept in jail until after registration day and then prosecuted under the penal provisions of the draft bill, which provides for a jail sentence for interference.

HOUSEWIVES MUST COOK IN CALORIES

Government Experts to Get Away From Technical Terms in Telling Kitchen Chemists How to Keep Down Cost of Living.

By Telegram to The Freeman.

Washington, May 29.—American housewives are going to learn to cook in terms of "calories," instead of "teaspoonfuls."

Along with its sweeping program of conservation, the food administration is to conduct a "down to the masses" education for American housewives. Information will be issued to the housekeeper in terms which she can understand, and by this method it is hoped to be able to augment the conservation of foodstuffs to such a degree that the United States will not meet with difficulty in providing foods for all of the allied armies fighting against the Germans.

"High cost of living" bulletins issued broadcast over the country for the past year have been too technical, according to members of the food administration. The average housewife has no conception of "calories," "proteins," and "fats," because she has always been told that they are chemical terms and the ordinary "Mrs. Kitchen" is no chemist.

The food administration has taken upon its shoulders the gigantic task of making a chemist out of every woman who practices the culinary art in the entire United States. This work will not be accomplished solely by bulletins issued by the Washington headquarters, but will be carried on by the national body of women who will be recruited from every corner of the country to help to forward the work of the food saving.

Kitchens for these "chemists" will be established in each community, in order that every mother may learn how to cook the least and get the most for the "home folks," so that her boys at the front may have all the food which they require to carry on their work.

Incidentally, the tip has gone forth that "war food" is not at all unpalatable and it may be that some of the war diets and war menus now in force in Europe will find a permanent place in the national diet.

For example, those who have eaten the "war bread" now being served in England maintain that it is actually more edible than the white bread used in America. Made from a flour of wheat, mixed with barley and rice, the bread has a bit of a brown tinge in color, but is none the less delectable. Moreover, it keeps better than the pure wheat bread and is more satisfying and has been pronounced by persons to be more easily digested.

TO GIVE NOTICE TO PUBLIC FIRST

Too Hasty Elimination of Railroad Trains Likely to Cause Trouble Says Public Service Commission—Want Time for Discussion.

The up-state Public Service Commission, fearful of too hasty elimination of passenger trains important to the business of the communities of the state, has sent the following letter to all the railroads within its jurisdiction, urging ample notice to the public before passenger service is cut in accordance with the recommendations of the Committee on National Defense of the American Railway Association:

The commission is in hearty sympathy with any movement of the railroads having in view the ultimate conservation of the resources of the country to the end that the war may be progressed with the utmost efficiency, but at the same time, it is of the opinion that any change in existing methods of operation, or of service rendered should be made only after careful and considerate deliberation, and that the recommendations referred to should be considered as such, and not as mandatory orders.

It believes, for instance, that the elimination of service long established, on which the public has come to depend in many instances for its daily bread, and in others for the distribution of the fruits of its labor, should not be done unless it can be definitely shown that such elimination will not completely and finally impair the usefulness of the communities involved. It entertains some doubt that unqualified compliance with the recommendations of the committee is required by the emergency as it now exists, and is confident that such changes as are contemplated or believed to be essential should be made only after complete information in reference thereto has been given the public, a reasonable time in advance of the date of change. It seems to be obvious that such notice is a necessity, for in many cases the changes may mean a complete revolution in the affairs of those dependent on the service in question. The commission desires also to emphasize its belief that your company must be able to show that any curtailments or eliminations which become effective have resulted unqualifiedly in the conservation of fuel, and in increase in "the capacity of the lines as a whole" as well as in securing "the maximum transportation energy for moving coal, food and troops necessary for the successful conduct of the war."

The commission considers that much benefit may be derived and ultimate hardships overcome, or at least mitigated, by full and free discussions of the proposed changes in advance of the inauguration thereof, and will welcome the opportunity to discuss with you or your proper representative the plans which you have in mind for the immediate future, or may contemplate for some time later.

WHY WATER BILL WILL BE HIGHER

Consumers When They Receive Their Quarterly Bill June 1, from Water Department Will Find It Calls for Four Months' Service.

Water consumers when they receive their bills for water service the first of June will find that the bill is higher than usual, and down in one corner of the bill they will find printed in red ink the reason for the increase. The water bill delivered the first of June calls for four months' water service instead of three months as heretofore. The water department is making out the bills for the extra period of one month in order to change the quarters to correspond with the calendar year and the bill will cover June, July, August and September. The next collection will be October 1.

Next year the first quarterly bill will call for January, February and March, instead of March, April and May as in the past.

The water board decided some time ago to make the quarterly bills correspond with the calendar year, but decided to wait until June to do so.

Flag for Cadet Corps. Frank T. Pitts, of the firm of C. V. L. Pitts & Sons, the Wall street, jeweler, on Monday afternoon presented a handsome flag to the Cadet Corps of School No. 7. STORM KING OF FREIGHT

To Operate From Rensselaer Connection With Barge Canal Buffalo.

With the near completion of a great barge canal on which New York state has spent over \$11,000,000, the Shippers' Navigation Company of Syracuse, realizing the opportunity for increasing shipping facilities, has joined with the Catskill Evening Line in a plan involving water transportation between New York and Buffalo. The former company has purchased 43 boats, steam packets, and tugs, which will be operated on the canal, of which all improvements with the exception of about 100 miles have been completed. The canal terminal will be in Rensselaer and at this point transshipment will be made to freighters of the Catskill Evening Line.

Traffic Manager Paul A. Rocher explained the plan which will go into effect at once and the first Storm King, which has been under Hudson points including Buffalo, went into service on May 15. Freight is now being delivered at New York for ship to Buffalo and all canal points.

The operation of steam packets between New York and Buffalo will mean a saving of five to ten percent over rail rates to and from metropolises and will save five to ten percent on freight shipments, the ordinary allowed for freight shipments between New York and Buffalo and about 10 days, including transshipment at Rensselaer, the new combination expect to make the distance five days.

Two New Explosives Announced—Scientists to Put Tremendous Into Warfare—Five Grains of One Would Finish Skyscraper.

By Telegram to The Freeman.

New York, May 29.—American inventive genius, which gave the Germans their most powerful weapon, the submarine, will knock it from their hands and will throw into the world war an explosive 10,000 times as powerful as dynamite, according to two announcements made by scientists here today.

Professor Michael I. Pupin, a member of the National Research Council, declared scientific methods have been perfected which will soon solve the submarine problem.

"If the submarine is really the weapon on which the Germans stake their all, then they have lost. Victor and will be ours," he said.

The second announcement of a new and powerful contribution to America's war power was made by Dr. D. DeWitt, who declared that, working with his son, had accidentally discovered a powerful new explosive which they had named "terroball."

"I am going to be very conservative in my estimate of the new explosive," he said. "It is ten thousand times more powerful than dynamite, and a five-grain tablet would destroy the Woolworth building."

ITALIAN GUNS AT TRIESTE GATEWAY

Furious Battle Being Waged for Capture of Austrian Stronghold—Guns Chained for Italians.

By Telegram to The Freeman.

Rome, May 29.—Both Italian guns and infantry are now pounding away at Durno, the gateway of Trieste.

The capture of this Austro-Hungarian stronghold is a difficult task, because it is defended by mountains which bristle with artillery and machine guns. But despite the severity of the task the Italians are pressing ahead with blows that gain them fresh ground every day.

The forcing of a passage across the Timava river gave the Italians foothold in the village of San Giovanni and it has been maintained since then.

The fighting on Monday rounded out the gains of the Italians on Sunday and Saturday, and enabled them to consolidate positions which they regard as impregnable.

Prisoners were streaming back from the Austro-Hungarian front, and the Italian forces, supplemented by the British, have captured a number of the Austro-Hungarian guns and tanks. They were dazed by the fire they were attacked by the Italian forces.

Italian military critics are jubilant over the success of the drive, but they are not making any predictions as to the time when Trieste will fall. However, the military chiefs make it plain that the Italians are in a position to fight all summer for the coveted prize if necessary.

In the case the Italians are battling against what might be termed an Austro-Hungarian Hindenburg line, and it requires a slow process of pounding the mountain fortresses of the Austro-Hungarians to pieces with his guns before the infantry can be sent on the hill-swept slopes.

The artillery duels all along the Isonzo river front are increasing in violence as a result of the arrival of new Austro-Hungarian batteries from the Russian front.

It is estimated that the Austro-Hungarian army has lost 400,000 men and 10,000 guns since the start of the war.

Since when taking an oath, one cannot smile and demurely reply "just twenty." Alas, no. One must tell the truth, the whole truth, etc. It is said that when the question of age is discussed females do not always follow this rule.

Those who are employed in the labor class need not take the constitutional oath, all others must do so. The act goes into effect immediately, which means that the necessary blanks, or whatever is to be used when taking the oath, are being prepared.

There are in the employ of New York state more women than men. The list of stenographers is a long one and on that list are girls who are of tender years as well as those who have grown gray in the service.

It is set forth in the Malone law that thirty days after the measure becomes a law, the work of taking the oath of office shall begin. This means that some time in June hands will be raised and eyes will be downcast on the part of the sensitive ones, should the age clause be contained in the language of the oath or in any part of the affidavit.

"The failure of my employee to take the oath shall terminate his employment until such oath shall be taken and filed as herein provided," reads the new law. But the word "this" refers to both sexes, so the ladies have been unable to find much solace in it.

The provisions of the Malone law are new and the requirement is regarded as a precautionary provision, in accord with the other so-called "war measures" enacted during the recent session.

MOB RUNS AMUCK IN EAST ST. LOUIS

Negroes Pinned and Beaten by Whites—Angered at Importations of Labor—Police Unable to Cope With Situation.

By Telegram to The Freeman.

East St. Louis, Ill., May 29.—A mob of 3,000 men who ran riot here last night, shooting and beating negroes and wrecking business places and homes owned by negroes, dispersed with the dawn of day, leaving behind them a trail of broken heads and bruised bodies. Half a dozen deaths may result.

The smoldering indignation against the importation of eight thousand negroes into the city since January 1, was fanned into flame when two white men were held up and robbed in the early evening. The news spread to a delegation of 60 members of East St. Louis trades and labor unions, who were at their hall protesting in council against further importations.

A crowd quickly gathered, and when some one yelled "Get him," the spark had reached the powder. The crowd swept through the streets, stopped and searched street cars for victims, and tried to break into the jail, where a number of negroes were rushed for safe keeping. Ambulances followed in the wake of the mob, picking up bruised and unconscious negroes.

Police gave up attempts to cope with the situation, and 125 members of two companies of the Sixth Illinois Infantry, under Major R. W. Cavanaugh, were called out by Mayor Fred Molman. The soldiers were swept from their feet and when it became evident that the small force was inadequate, Adjutant General Dickson was appealed to for aid.

General Dickson responded that he was powerless to call out the federalized guard units, pointing out that they were under direct call of President Wilson.

Dozens of saloons were wrecked in the colored district and every negro found as beaten. Many negroes fled across the river bridge to St. Louis, carrying bundles and suitcases.

CONSPIRACY AIMED AT CONSCRIPTION

Chicago, May 29.—A nation-wide conspiracy to balk the conscription law June 5 has been nipped in the bud through the arrest of two alien leaders in West Virginia, nine in Texas, one in Seattle, and five in an anti-draft plot in Detroit, according to announcement of H. G. Clabaugh, investigator here for the United States bureau of justice. Clabaugh hinted that the "mustor mind" in the conspiracy might be in custody by tonight.

Five persons—two women and three men—were said to be detained here for investigation in connection with the plots. Clabaugh refuses to discuss details of the plot, although he admits he has considerable evidence in his possession.

There were intimations that the conspirators were preparing to exceed all bounds in their fight on conscription—even to violence.

The conspirators are said to be in close sympathy with, if not employed by, the German government. Clabaugh said evidence of the plot has been discovered in portions of Wisconsin, northern Illinois, Indiana, Ohio, Michigan and Iowa.

The leaders will be kept in jail until after registration day and then prosecuted under the penal provisions of the draft bill, which provides for a jail sentence for interference.

TO GIVE NOTICE TO PUBLIC FIRST

Too Hasty Elimination of Railroad Trains Likely to Cause Trouble—Says Public Service Commission—Want Time for Discussion.

The up state Public Service Commission, fearful of too hasty elimination of passenger trains important to the business of the communities of the state, has sent the following letter to all the railroads within its jurisdiction, urging ample notice to the public before passenger service is cut in accordance with the recommendations of the committee on National Defense of the American Railway Association:

The commission is in hearty sympathy with any movement of the railroads having in view the ultimate conservation of the resources of the country to the end that the war may be progressed with the utmost efficiency, but at the same time, it is of the opinion that any change in existing methods of operation, or of service rendered should be made only after careful and considerable deliberation, and that the recommendations referred to should be considered as such, and not as mandatory orders.

It believes, for instance, that the elimination of service long established, on which the public has come to depend in many instances for its daily bread, and in others for the distribution of the fruits of its labor, should not be done unless it can be definitely shown that such elimination will not completely and finally impair the usefulness of the communities involved. It entertains some doubt that unqualified compliance with the recommendations of the committee is required by the emergency as it now exists, and is confident that such changes as are contemplated or believed to be essential should be made only after complete information in reference thereto has been given the public, a reasonable time in advance of the date of change. It seems to be obvious that such notice is a necessity, for in many cases the changes may mean a complete revolution in the affairs of those dependent on the service in question. The commission desires also to emphasize its belief that your company must be able to show that any curtailments or eliminations which become effective have resulted unqualifiedly in the conservation of fuel, and in increase in the capacity of the lines as a whole, as well as in securing "the maximum transportation energy for moving coal, food and troops necessary for the successful conduct of the war."

The commission considers that much benefit may be derived and ultimate hardships overcome or at least mitigated, by full and free discussion of the proposed changes in advance of the inauguration thereof, and will welcome the opportunity to discuss with you or your proper representative the plans which you have in mind for the immediate future, or may contemplate for some time later.

STORM KING OF FREIGHT

To Operate From Rensselaer Section With Large Canal Buffalo.

With the near completion of great barge canal on which New York state has spent over \$1,000,000, the Shippers' Navigation Company of Syracuse, realizing the opportunity for increasing shipping facilities, has joined with the Catskill and Hudson River Line in a plan involving all water transportation between New York and Buffalo. The former company has purchased 43 boats, which will be operated on the canal, with all improvements with the exception of about 100 miles have been completed. The canal terminal will be in Rensselaer, and at this point transshipment will be made to freighters of the Catskill and Hudson River Line. Traffic Manager Paul A. Rochester explained the plan which will be effected at once and the Storm King, which has been in upper Hudson points including kill, went into service on May 15. Freight is now being received at New York for shipment to Buffalo and all canal points. She will leave New York on Thursday and Saturday evenings, and go direct to New York. She will leave New York on Monday. Wednesday and Friday of each week during the river season. As soon as the business warrants Catskill and Hudson River Line will put other freighters into the service. The operation of steam packets the barge canal means an end to the long honored towing system which has been the rule since the opening in the days of Governor With Clinton and will also make the first time in the history of canal a through steam all water between New York and Buffalo. It will mean a saving of five cents over rail rates to and from metropolitan and will save five days freight shipments. The ordinary allowed for freight shipments between New York and Buffalo is about 10 days, including transshipment at Rensselaer, the new canal expect to make the distance five days.

MURPHY, MANN AND KAPLAN ENLISTED

Monday Andrew J. Murphy, Jr., Sam Mann and Meyer Kaplan went to New York city to enlist. Mr. Murphy successfully passed the examination and has been admitted to the United States Naval Reserve, and is subject to call at any time. He is a son of Andrew J. Murphy, the Strand stationer and sporting goods dealer, and is a graduate of Ulster Academy where he made his mark in school athletics.

Mr. Mann is a son of the well known Broadway fruit dealer, and he passed the examination and enlisted in the Quartermaster Reserve Corps and was appointed a corporal storekeeper.

Mr. Kaplan also enlisted in the same division with the rank of sergeant chauffeur. He is a son of Morris Kaplan of North Front street.

WOMAN KILLED IN FALL FROM WINDOW

Mrs. Albert Hogan Was Almost Blind and Had Been in Poor Health Previous to Accident at O'Neil Street Home.

Sarah Short, wife of Albert Hogan, fell from a second story window of the home of her daughter, Mrs. Melinda Crispell, at No. 89 O'Neil street, Monday afternoon, and was instantly killed.

Mrs. Hogan was almost entirely blind. She was in somewhat feeble health but was able to move around the house. It is supposed that she opened one of the windows and miscalculated the height of the lower part of the window, or reached too far up in lifting the sash. She was discovered by neighbors and her daughter and was dead when picked up. Dr. John R. Gillett was summoned but found her beyond assistance.

Besides her husband, Mrs. Hogan is survived by two children, Frank Hogan of Olive Bridge and Mrs. Crispell of this city, who resided with her; two sisters, Mrs. E. Bishop of Haverhill and Mrs. Cyrus Cudney of Olive; one brother, Lorenzo Short, of this city, and six grandchildren. The funeral will take place from her late residence on Thursday afternoon at one o'clock. The interment will be in Wilkewick cemetery.

A MILITARY DRILL BY U. S. BATTERY

Will Feature Baseball Games With Primrose Team on Decoration Day—Two Games With West Point.

There will be two games of baseball played at the Athletic Field on Decoration Day when the West Point Artillery baseball team meets the Primrose Club in two games. A game will be played in the morning at 10 o'clock and in the afternoon at 3 o'clock.

A military drill will be staged before the afternoon game by a battery of U. S. Artillery who will accompany the West Point team. The West Point team is one of the best clubs in this section and on their last appearance in this city gave the Primrose boys a stiff battle, the game ending in a victory for the latter by the score of 4 to 3.

Sutton and Conners will be in the points for the Primrose Club in the morning game and Williams and Schermer in the afternoon game.

Labor Riot in Montevideo.

Montevideo, May 29.—Violent rioting has broken out here as a result of the serious labor situation. Three regiments of cavalry have been sent into the city to quell disorders. All the cab and street railway service has been suspended and no newspapers published today.

HOUSEWIVES MUST COOK IN CALORIES

Government Experts to Get Away From Technical Terms in Telling Kitchen Chemists How to Keep Down Cost of Living.

By Telegram to The Freeman.

Washington, May 29.—American housewives are going to learn to cook in terms of "calories" instead of "teaspoonfuls."

Along with its sweeping program of conservation, the food administration is to conduct a "down to the nitty-gritty" education for American housewives. "Information" will be issued to the housekeeper in terms which she can understand, and by this method it is hoped to be able to augment the conservation of foodstuffs to such a degree that the United States will not meet with difficulty in providing foods for all of the allied armies fighting against the Germans.

"High cost of living" bulletins issued broadcast over the country for the past year have been too technical, according to members of the food administration. The average housewife has no conception of "calories," "proteins," and "fats," because she has always been told that they are chemical terms and the ordinary "Mrs. Kitchen" is no chemist.

The food administration has taken upon its shoulders the gigantic task of making a chemist out of every woman who practices the culinary art in the entire United States. This work will not be accomplished solely by bulletins issued by the Washington headquarters, but will be carried up by the national body of women who will be recruited from every community and every walk of life to forward the work of the food saving.

Kitchens for these "chemists" will be established in each community, in order that every mother may learn how to cook the least and get the most for the "home folks," so that her boys at the front may have all the food which they require to carry on their work.

Incidentally, the tip has gone forth that "war food" is not at all unpleasant food, and it may be that some of the war diets and war menus now in force in Europe will find a permanent place in the national diet.

For example, those who have eaten the "war bread" now being served in England maintain that it is actually more edible than the white bread used in America. Made from a flour of wheat mixed with barley and rice, the bread has a bit of a brown tinge in color, but is none the less delectable. Moreover, it keeps better than the pure wheat bread and is more satisfying and has been pronounced by persons to be more easily digested.

Upon the staff of Herbert C. Hoover, who has been appointed food administrator by President Wilson, are numerous experts who were employed by the Belgian relief commission in Belgium. These experts have had practical experience with war cookery and while they do not propose to force upon the American people any long list of substitute foods, they believe they will be able to convince the American people that many of the so-called "war foods" are really no measures of hardship, but are new discoveries in diet and foods.

W. C. T. U. Mother's Meeting.

Mothers' meeting will be observed by the W. C. T. U. Thursday at 2:30 o'clock in the parlors of St. James' M. E. Church. Mr. Howards, the noted temperance speaker, will address the meeting. All members and friends are cordially invited to be present.

WHY WATER BILL WILL BE HIGHER

Consumers When They Receive Their Quarterly Bill June 1, from Water Department Will Find It Cuts for Four Months' Service.

Water consumers when they receive their bills for water service the first of June will find that the bill is higher than usual, and down in one corner of the bill they will find printed in red ink the reason for the increase. The water bill delivered the first of June calls for four months' water service instead of three months as heretofore. The water department is making out the bills for the extra period of one month in order to change the quarters to correspond with the calendar year and the bill will cover June, July, August and September. The next collection will be October 1.

Next year the first quarterly bill will call for January, February and March, instead of March, April and May as in the past.

The water board decided some time ago to make the quarterly bills correspond with the calendar year, but decided to wait until June to do so.

Flag for Cadet Corps.

Frank T. Pitts, of the firm of C. V. L. Pitts & Sons, the Wall street jewelers, on Monday afternoon presented a handsome flag to the Cadet Corps of School No. 7. The flag is 6 feet in size and is mounted on a staff which is surmounted by an American eagle. During Mr. Pitts' student career at School No. 7, then School No. 11, he was a member of the Cadet Corps of the school which was organized by U. G. Atkins, who at that time was principal there. The flag was greatly appreciated by the cadets, who will carry it in the Memorial Day parade tomorrow.

Two New Explosives Announced—Scientists to Put Tremendous Into Warfare—Five Grades of Oil Would Finish Submariners.

By Telegram to The Freeman.

New York, May 29.—American inventive genius, which gave the Germans their most powerful weapon, the submarine, will knock it from their hands and will throw into the world war an explosive 10,000 times as powerful as dynamite, according to two announcements made by scientists here today.

Professor Michael I. Pupin, a member of the National Research Council, declared scientific methods have perfected which will soon solve the submarine problem.

"If the submarine is really a weapon on which the Germans stake their all, then they have lost. Victor, and will be ours," he said.

The second announcement of a new and powerful contribution to America's war power was made by Dr. D. DeWitt, who declared that he, working with his son, had accidentally discovered a powerful new explosive which they had named "terroball."

"I am going to be very conservative in my estimate of the new explosive," he said. "It is ten thousand times more powerful than dynamite, and a five-grain tablet would destroy the Woolworth building."

NAVIGATION NOTES ALONG THE RIVER

The new steamer Poughkeepsie of the Central Hudson line started running on the route between New York and Rondout today leaving New York at 1 o'clock this afternoon and is scheduled to reach Rondout 2 o'clock Decoration Day morning. Decoration day the new steamer will run an excursion from Rondout to Bear Mountain Park, leaving Rondout at 10 o'clock in the morning and returning leaving Bear Mountain at 5:30 and reaching Rondout about 5:10. The steamer will leave on its regular down river trip that day at 1 o'clock that afternoon for New York.

An increase in the pay of the firemen and deckhands of the Cornell touring line has been announced to take place June 1.

The Mary Powell left Rondout for New York this noon. Decoration Day she will run an excursion from New York to West Point.

The steamship Gardiner will leave Rondout at 6 o'clock Decoration Day morning for Poughkeepsie, returning with a Polish society excursion to Rondout. She will resume her regular trips at 11 o'clock that morning.

The evening at 8 o'clock she will return to Poughkeepsie with the excursion she brought here in the morning.

REGISTERED FOR MARRIAGE

New York Doctor May Favor Draining Them Too.

By Telegram to The Freeman.

New York, May 29.—"We are registering the availability of men for war and of incomes for taxation and I don't see why we should not register the qualifications of men for marriage," was the contribution of Dr. Gerald Van Casteel to the feminist movement today.

"We could mark them, say 50 per cent for health, 20 per cent for the ability to keep on doing what they started out to do, and perhaps five per cent for good looks and so on. Then when some chap asked a girl to marry him, she could look him up in the matrimonial Dun and Bradstreet."

In a short time the best young men are going to fight in France, and only the weaklings will be left, and it isn't fair to the girls "who ought to get a chance at a live man," is Van Casteel's plea. The "selective matrimonial conscription," plan would promote marriages, he argues, and give the boys at the front something back to come to fight for.

SHOT BY A SOLDIER

Sentinel Assaulted for Trying to Stop a Fight.

By Telegram to The Freeman.

New York, May 29.—Herbert Taylor, a private of Company K, Fortieth Regiment, guarding the Nichols copper plant in Laurel Hill, L. I., shot and killed H. B. Binderman, captain of a canal boat, during the night after a terrific struggle. According to Taylor's story, he attempted to stop a fight aboard the boat, and was attacked by the captain, who wielded a heavy iron bar. After vainly trying to defend himself with his bayonet, Taylor fired, sending a bullet through Binderman's heart.

Captain Wilson, who ordered Taylor into custody, refused to make a statement today, and informed the police the latter was in the hands of the military authorities.

## A GUARD OF HONOR FOR MISS FREEMAN

Supplementary Orders Issued by  
Grand Marshal Atkins Include  
Salute of Flag and Singing at  
Kingston Academy Green.

The following supplementary or-  
ders for the Memorial Day parade  
have been announced by D. G. At-  
kins, the grand marshal:  
Headquarters of the Grand Marshal,  
Kingston, N. Y.,  
May 29, 1917

General Orders, No. 2:  
The following supplementary or-  
ders for the Memorial Day parade  
and exercises in this city, are pub-  
lished for the information and guid-  
ance of all concerned:

First.  
Miss Dorothy Freeman and her  
guard of honor will form at the  
girls' entrance to the High School on  
Broadway, at 19 a. m.

Second.  
When the sixth division on Maiden  
Lane passes the flag staff on the  
Academy green, and the automobile  
containing Miss Freeman and her  
guard of honor is in front of the  
flag staff, the line will halt and Miss  
Freeman and her guard of honor will  
proceed to the flag staff on the  
Academy green. When she unfurls  
the flag, the high school girls and  
the Boy Scouts of America will sa-  
lute the flag, and the band will play  
"The Star Spangled Banner," and  
all are requested to sing the national  
air.

Third.  
When the Boy Scouts of America  
arrive on Maiden Lane opposite the  
flag staff, they will halt and form in  
line on the right side of Maiden  
Lane, facing the flag staff, and re-  
main standing until the unfurling of  
the flag. The rest of the line will  
proceed on the line of march as  
heretofore ordered.

## C. OF C. TO BOOST PLACING OF BONDS

Liberty Loan Issue Meets With Favor  
and Churches and Industrial Com-  
mittee Reports on Legislation.

The Chamber of Commerce is go-  
ing to obtain twenty-five more mem-  
berships this spring, if its campaign  
committee's plans are carried out,  
thus bringing the membership up to  
400. At the meeting of the directors  
of the Chamber Monday night at  
headquarters, the Defense Committee  
reported in favor of promoting the  
sale of Liberty Loan bonds. This  
will be done by urging the pastors in  
the churches to call the bond issue  
to the attention of the congrega-  
tions on Sunday, also to urge indus-  
trial concerns to purchase Liberty  
bonds and sell them to employees. H.

mittee to co-operate with the Red  
Cross in the matter of publicity.  
Frederick Stenham, Jr., Frederick  
W. Diehl and Morris Levy, committee  
on State Legislation, reported in  
favor of legislation now before Gov-  
ernor Whitman as follows:

1.—Senate Bill Int. 991 (Assembly  
No. 1378) amending Section 34 of  
the Tax Law in relation to omitted  
property.

Against Bridge Pier.

2.—The Welch Bill 85, rescinding  
the right of the Hudson River Con-  
necting Railway Corporation to build  
a bridge pier in the channel of the  
Hudson River near Castleton. This  
bill was introduced through the ef-  
forts of the Albany Chamber of Com-  
merce and passed both houses of the  
legislature on the 10th instant. The  
Hudson Valley Chamber of Com-  
merce, through a committee of which  
President Leighton is a member,  
after a hearing at Albany last Mon-  
day voted unanimously in favor of this  
bill on the ground that the vast sums  
of money expended by the state in  
the improvement of its system of  
canals and the deepening of the upper  
Hudson, will be rendered much less  
useful in this obstruction is permitted  
to be placed in the river channel.

3.—Brown "Hours of Labor" Bill  
permitting the State Industrial Com-  
mission, after due investigation, to  
extend the hours of labor when nec-  
essary at factories engaged in the  
manufacture or production of mun-  
itions of war or commodities to be  
used in connection with the public  
defense, in the production and care  
of agricultural products, or in work  
connected with the prosecution of the  
war or with the relief of public neces-  
sity occasioned by the war.

4.—Mullan Senate Bill Int. 281  
providing for the taxation of transi-  
ent merchants, giving cities, towns  
and the state authority to make  
itinerant merchants contribute a fair  
and reasonable amount toward the  
expense of the community whose  
privileges they enjoy.

### Two Bills Disapproved.

The committee requested Governor  
Whitman to veto the Foley Patent  
Window Bill (Senate Int. 1374) and  
the Foley Bill (Senate Int. 368)—  
an act to amend the penal law in re-  
lation to practicing law, which seeks  
to remedy the abuse in connection  
with accident cases occasioned by  
professional runners known as "Am-  
bulance Chasers," but reaches much  
further in its application.

### Illustrated Lecture Tonight.

This evening there will be given a  
stereopticon lecture on Bagdad, by  
the Rev. Putnam Cady, D. D., at the

interesting will be the pictures which  
were taken by Dr. Cady himself. At  
the close of the lecture ice cream and

## OATHS OF OFFICE REQUIRED OF ALL

State, County, City and Village Em-  
ployees, Outside of Laborers, Must  
Take Constitutional Oath of Office  
Under New Law—District At-  
torney Traver First to Comply.

Under chapter 574 of the laws of  
1917, which became a law on May  
19th, all persons employed by the  
state or its civil divisions, except in  
the labor class, whose services are  
compensated from the public treas-  
ury, are required to take and file the  
constitutional oath of office within  
thirty days or such person's employ-  
ment terminates automatically.

This provision of the law applies  
not only to all state employees but  
also to those of the county and  
towns and the city of Kingston, who  
are compensated from the public  
treasury, and means that practically  
every office holder in the county,  
towns and city of Kingston except  
persons in the labor class must take  
and file the prescribed oath within  
thirty days from the time the law  
went in effect or else lose their job.

### The Oath Required.

The oath required to be taken and  
filed is as follows:  
"I do solemnly swear that I will  
support the constitution of the United  
States, and the constitution of the  
state of New York, and that I will  
faithfully discharge the duties of the  
office according to the best of my ability."

"Sworn and subscribed before me  
this day of May, 1917."

### What the Law Says.

Chapter 574, referred to, adds a  
new section to the civil service law,  
as follows:

"30. Person employed by state or  
its civil divisions and cities to take  
and file constitutional oath. Every  
person hereafter employed by the  
state or any of its civil divisions or  
cities, except in the labor class as de-  
fined in this chapter, before he shall  
be entitled to enter upon the dis-  
charge of any of his duties, shall  
take and file an oath or affirmation  
in the form and language prescribed  
by the constitution for executive, leg-  
islative and judicial officers, which  
may be administered by any officer  
authorized to take, within the state,  
the acknowledgment of the execu-  
tion of a deed of real property, or by  
an officer in whose office the oath is  
required to be filed. The oath of  
every state employee shall be filed in  
the office of the secretary of state, of  
every employee of a municipal corpo-  
ration with the clerk thereof and of  
every other officer, if no place be oth-  
erwise provided by law, in the office  
of the clerk of the county in which  
he shall reside. Every employee of  
the state and of each of its civil di-  
visions and cities in such employ when  
this act shall take effect, except the  
labor class as defined in this chapter,  
shall take and file such oath within  
thirty days after this act shall take  
effect. The failure of such employee  
to take and file such oath shall ter-  
minate his employment, until such  
oath shall be taken and filed as here-  
in provided."

### Civil Service Commission's Ruling.

Secretary John C. Birdseye, of the  
state civil service commission, in a  
notice issued last week, announced:  
"This law applies to all public of-  
ficers and employees in the civil ser-  
vice of the state, counties, cities, vil-  
lages and towns, even though the  
positions held are not subject to the  
provisions of the civil service law  
and rules, except persons holding po-  
sitions in the labor class."

### Secretary Birdseye stated also:

"This provision of law makes it  
the duty of all public officers to aid  
in the enforcement of the statute  
above mentioned. It is believed that  
the most practical way to execute  
the law is to require appointing of-  
ficers when submitting pay rolls, esti-  
mates, accounts or vouchers for the  
certification of a civil service com-  
mission, or for payment by a dis-  
bursing officer, to attach to the pay  
roll, estimates, accounts or vouch-  
ers, a certificate in form as follows:  
"I hereby certify that the per-  
sons named herein have taken and  
filed the constitutional oath in ac-  
cordance with chapter 574, laws of  
1917."

### Attorney General's Opinion.

District Attorney Frederick G.  
Traver, on receipt of the notice,  
wrote to Attorney General Merton E.  
Lewis for his opinion as to the re-  
quirements of persons now holding  
public office who already have taken  
and filed the constitutional oath tak-  
ing and filing a new oath, and today  
received the following letter from him:

May 28, 1917.

"Hon. Frederick G. Traver, King-  
ston, N. Y.  
"Dear Sir:—In reply to your letter  
of the 26th inst., I beg to advise you  
that it seems to be the intent of sec-  
tion 30 of chapter 574 of the laws  
of 1917, to require the taking and  
filing of an oath by every person now  
in the service of the state or any  
civil division thereof whose services  
are compensated from the public

### THE BURDEN OF WORRY.

Today's Is Enough; Never Mind Yes-  
terday's or Tomorrow's.  
A wayfarer carried a heavy sack, un-  
der which he toiled and complained un-  
ceasingly. From time to time he got  
help or comfort.

And as he slowly journeyed, grow-  
ing under his burden, the Angel of  
Opportunity came to him and spoke  
kindly, saying:  
"Brother, what carriest thou?"  
The man answered surlily, "My wor-  
ries."

The angel smiled pityingly upon him  
and said, "Let us look into thy burden  
and examine thy worries."  
And so they looked in. But, lo, the  
sack was empty!

"Why, surely," cried the man, "there  
were two great worries, too heavy for  
man to bear! But—ah, yes, I had for-  
gotten—one was a worry of yesterday,  
and so it is gone."  
"And the other?"  
"That—why, that was a worry of to-  
morrow, and it—has not yet come."  
Then the angel smiled with infinite  
pity, saying:  
"Hearken. He who bows himself  
down under the worries of yesterday  
and tomorrow wears himself out for  
naught. But he who carries only the  
worries of today has no need of a sack  
for his sorrows. If thou wilt cast this  
black thing aside and give all thy  
strength and cheer and courage to the  
things of today real misfortune never  
can burden thee."

## NEEDN'T FEAR AN OVERPRODUCTION

State Food Supply Commission Reports on Situation Showing Increases in Area Planted to Alfalfa and Corn—An Intelligent Response.

That farmers need not fear overproduction is emphasized in the report of the New York Food Supply Commission to Governor Whitman. The report says:

"Some farmers have feared overproduction. This fear might be justified were it not for the conditions in Europe. All of Europe is approaching the famine state, and there is no possibility that the farmers of Europe can give the care necessary for the production of the best crops. Large quantities of food are being lost at sea. The world's reserve of food is probably the lowest in history. The grain on farms in the United States on March 1 is 7,000,000,000 bushels below last year.

"The quantity in elevators is much short of last year. The wheat crop that has just been harvested in New Zealand, Australia and Argentina is estimated at only 70 per cent of last year's crop. The winter wheat of the United States is in poor condition. There need be no fear of overproduction of staple crops.

"The twenty year average yield per acre of all grains, including corn, oats, wheat, rye, barley and buckwheat, in the United States is 1,198 pounds. But in 1901, it was only 913 pounds and in 1912 it was 1,381 pounds. The difference of nearly 40 per cent was due to weather conditions. If as low yields should occur this year as occurred in 1901, conditions would be very serious. Even if the yield should be as low as 1912, the best in twenty years result, there would be no chance of low prices for grains."

The report continues:

"The intelligent way in which New York farmers have responded to the demand for more food is shown by the increase in acreage of those crops for which there is the most demand. The total acreage of crops is practically the same as that of eight years ago, but there is 770,000 less acres of grass. This area has been added to the area of grains, fruits and vegetables. In eight years the bean acreage has increased 138 per cent, wheat 45 per cent, fruit 35 per cent. Never before have so many acres of intensive crops been grown in New York. The total acreage of fruits, beans, potatoes, cabbage and other vegetable crops is a third more than it was in 1909."

The following shows the use to be made of farm land in New York state in 1917: Fruit crops, 535,088 acres; potatoes, 275,780 acres; corn, 2,408,016 acres; buckwheat, 2,408,016 acres; corn for silo, 422,867 acres; hay crops, 4,145,590 acres. The census report shows 2,390,659 acres of tillable pasture land and 2,184,522 acres of pasture land which is not tillable in the state. Of the woodland or land on which timber is standing, 1,375,469 acres are pasture land and 2,013,332 acres are not pasture land.

An increase in corn for the silo is

## PROTECT THE POTATO CROP.

Treatment of the Seed is an Effective Method.

One of the ways advocated for increasing the yield of potatoes this year is to treat the seed to prevent diseases that will otherwise tend to shorten the crop. The state college of agriculture offers the following suggestions in regard to the prevalent diseases and their prevention.

The organisms which cause the diseases are harbored on the seed during the winter and are introduced into the ground at the time of planting. By soaking the tubers in a solution of corrosive sublimate or of formaldehyde before the seed is planted, the diseases may be greatly checked or wholly prevented.

**Potato Diseases.**

The four potato diseases likely to be found in New York are partly or wholly controllable by corrosive sublimate. The diseases are:

Scab, which is responsible for most of the rough and generally unmarketable potatoes.

The rhizoctonia stem rot, which is also known as the little-potato disease, causing missing hills, an uneven stand, and hills with nothing but small worthless potatoes. It appears on the seed tubers as small black pits like muck, sticking fast to the surface.

Blackleg, which causes a black stem rot and the early death of the plant, is carried both on and within the seed tubers.

Powdery-scab, a disease recently introduced from Europe, is caused by an organism that is carried on affected potatoes and on other tubers which come in contact with them.

**Directions for Treatment.**

The solution may be contained in wooden troughs or tubs, but barrels are more handy, an inch hole fitted with a wooden plug is bored in the side of the barrel near the bottom, and the containers are set upon a platform high enough so that the solution may be drawn to a level of 12 or 14 inches. The solution itself is made by adding four ounces of powdered corrosive sublimate to each thirty gallons of water. The powder does not dissolve readily in cold water and should first be dissolved in a quart or more of hot water. A metal vessel should not be used, nor should metal containers be used in any part of the process.

The barrels are filled with untreated potatoes which are covered with the solution, and soaked for one and one-half hours. At the end of this time the solution is drawn off, the potatoes removed and the process repeated for the next lot of untreated potatoes, adding some fresh solution to replace what was taken up by the treated seed. The solution loses strength with each successive treatment; even with the addition of the fresh solution it should be thrown away after the fourth using.

After the potatoes have been treated they should be spread out in shallow piles and allowed to dry.

Corrosive sublimate is a deadly poison. The solution and the treated seed must be kept out of the reach of children and of stock.

**The Use of Formaldehyde.**

Formaldehyde, in the strength of one pint to 40 per cent solution to 30 gallons of water, is effective against scab, but is not wholly effective against rhizoctonia. The seed should be soaked in it for two hours. It is less dangerous to use than the corrosive sublimate and may be used repeatedly without renewal. However, the college says it is not preferable to the corrosive sublimate, which is recommended because of its great effectiveness against rhizoctonia.

More detailed information about dealing with potato diseases may be had by writing to the department of plant pathology, state college of agriculture, Ithaca, New York.

## STONE RIDGE.

Stone Ridge, May 28.—Sally Tocks Inn will open May 29. Special efforts will be made to please all patrons.

A meeting of the Fairview Cemetery Association will be held on the cemetery grounds on the morning of Decoration Day.

A meeting will be held in the Grange Hall on Wednesday evening, May 30, at 7:30 o'clock. Everybody welcome. Admission free. Ex-convict No. 11221, a former member of New York state bar, will tell of his experience behind bar walls. Hear his views on the cause and effect of crime as expressed by men with whom he has been associated. "A Message From the Death House," is the title of his lecture.

Terrell Crispell of Kingston has purchased the Woolsey property. Mr. and Mrs. Clarence Woolsey of New Paltz and Lester Woolsey of Washington, D. C., were in town for a few days last week.

Irving Cornish has purchased a new piano.

The men's Bible class of the Reformed Church is practicing for a play entitled "A Thief in the House." This play will be given in the near future.

Rumor says that the soldiers stationed near this village are preparing an entertainment to be given in the Grange Hall for the benefit of the local Red Cross Society.

Mr. and Mrs. Fred Hanson of New York city are spending a few days with Mrs. Hansen's parents, Mr. and Mrs. Davis Van Demark.

Irving Schoonmaker is building a large dairy barn.

Mrs. Eltinge Schoonmaker is ill. Dr. James Coles has two high school boys from Kingston helping him on his farm.

Frank Davis has bought an Overland truck.

Alphonso Craft has bought an auto.

The Red Cross Society meets every Saturday afternoon in the Grange Hall. Donations of old linen tablecloths or sheets will be welcome by the society.

**Drink Water—Keep Young.**

Old age, a Roman scientist contends, is due solely to a decrease in the amount of water in the human system.

## The KITCHEN CABINET

The happy state of mind so rarely possessed in which we can say, "I have enough" is the highest attainment of philosophy. Happiness consists not in possessing much, but in being content with what we possess. Life who wants little always has enough.

**GOOD THINGS FOR THE TABLE.**

Hamburger steak is so much more palatable when prepared at home, using the tough portions of round steak with a little fat either of suet or fresh pork; add a third of the amount of meat of cooked oatmeal or farina or rice, mix and season well and make into small cakes. A pinch of cloves and nutmeg with a little scraped onion or onion juice improves the flavor. With a meat grinder many nice and palatable dishes may be prepared from the tougher portions of meat.

**Asparagus Canapés.**—Prepare strips of stale bread an inch and a half wide and four inches long; spread with butter on both sides and set into the oven until delicately browned on both sides. When cold and ready to use, spread with salad dressing and place a border of yolk of egg put through a ricer around the toast, and a row of chopped white on the outside of that. In the center lay an asparagus tip cooked, cooled and dried on a cloth. Sprinkle with finely chopped parsley.

**Fresh Fish Chowder.**—Cut cod, haddock, lake fish, pickerel or bass into fillets two inches long, removing the bones, and set aside in a cool place. Cover the head bones and trimmings with cold water and simmer slowly for half an hour. For three pounds of fish, try out two or three ounces of salt pork cut in cubes; in this sauté an onion cut in slices; add the liquid in which the bones were cooked, boil up five minutes and strain over the fish. Have ready three cups of potato cubes, parboiled in water and drained. Add these to the fish with one tablespoonful of salt and a generous dash of paprika, and let simmer until the potatoes are tender. Add three cups of hot milk, a fourth of a cup of butter or fat or salt pork fryings and serve with crackers and olives.

**Crackers to Serve With Tea.**—Spread small, round crackers with orange marmalade and cover with holed frosting. Brown quickly in the oven. Jelly or other preserves may be used instead of orange marmalade.

## MEMORIAL DAY.

Memorial Day, in which nearly all the Northern States join to commemorate the deeds of the soldier dead in the War of the Rebellion, was first officially recognized in 1868 when General John A. Logan, then commander-in-chief of the lusty young Grand Army of the Republic, issued an order setting the day apart among Grand Army posts for that purpose. But the idea of a memorial day was older than Logan's order. Its exact origin being lost to view in the controversy that has come to be inseparable from the tracing of such matters in this country. In the Spring of 1867, General John B. Murray is credited with having instituted a memorial day in his home village of Waterloo, Seneca County, and in that same year the good women of Columbus, Miss., strewed flowers alike on the graves of wearers of the blue and the gray. Perhaps the best authenticated story of the first celebration of Memorial Day goes back to May 1, 1865, when 2,000 colored children of Charleston, S. C., marched to the graves of the hundreds of victims of the notorious Charleston prison pen and decorated the graves amid the singing of patriotic songs in honor of the men who died to free their race. Still, the actual inspiration which gave rise to our Memorial Day institution is of no great moment. There is that about the grateful expression of a people, reunited through the sacrifices of the soldiers whose memories are honored, that makes the occasion sufficient unto itself, a truly unique observance in which a grateful republic joins. It is only to be regretted that in the prevailing mania for a holiday that sports and other irrelevant features are permitted to obscure the true objects of Memorial Day. For that reason it would seem that the day would be far more appropriately observed if it could be set for some certain Sunday annually. But, we suppose, if that were attempted the blue laws would be invoked so that no hands of music could be employed and the day would be deprived of much of the pageantry that now goes to make its observance more impressive and interesting to younger generations, in whom it is hoped to inculcate patriotism and love of the country in whose service the soldier dead gave the last full measure of devotion.

The New York Sun on Monday editorially urged its readers to have an every day thought for the flag of our country, incidentally severely condemning the practice of placing the starchy emblem upon napkins and other inappropriate articles in daily use. The collar and handkerchief reproduction of the Stars and Stripes seems to be on the wane and the hosiery never got much farther than the ankles of a few would-be smart dressers. The attack by the press upon such objectionable exhibitions of poor taste and misplaced patriotism is probably the only thing that prevented the flag being further abused. From flag-bedecked handkerchiefs and hosiery to printing flags on cuspidors, mop pails and towels is only a step, but one which our thoughtful folk should not be permitted to take. Cultivation of a sensitive regard for the flag and against its employment as a decorative addition to commonplace things is urged upon every American at this extraordinary time, so that commercial enterprise may not get away with a sort of pocketbook patriotism at the expense of the dignity of the American flag.

June bids fair to be divested of many of her ancient perquisites in this year of grace and bloody misunderstanding. There won't be the usual number of brides, because so many of the boys tried matrimony weeks ago in an effort to avoid conscription; sweet girl graduates will wear cotton and be just as sweet withal as though clad in the finest of weeks ago in an effort to avoid conning their diplomas in the field along with some heavy callous spots on their hands; the youth between the ages of 21 and 31 are preparing for their registration; altogether, it is a pretty much upset calendar that bears the familiar label of June. The month will mark a Commencement Week for the Nation in the getting together of a great conscript army.

There will be Registration Day, Flag Day, Circus Day and twenty-seven others of the kind of which the poet asked what is so rare. If those be insufficient, the President has set aside the week ending June 25 as Red Cross Week, and the merchants of Kingston, not to be outdone, have fixed June 4 to 9 as Pay-up Week. Altogether in our recollection of the month of roses for a number of years back the prospect has not been anywhere near as busy as that for June, 1917. Even Nature seems to be weeping over the prospect, but her emotions are such mixed affairs, it is hard to tell whether her tears are due to joy or sorrow.

## LITTLE LAUGHS.

"When you go into the army you will have setting-up training." "Gosh, doc, I don't need any more of that. I've been setting 'em up for years." —Louisville Courier-Journal.

Uncle—"That boy Sam of mine doesn't seem to be able to keep his mind on anything. I don't know what to do with him." Uncle Ebb—"Why don't ye send him to one of them concentration camps that we read about?"—Puck.

"You enjoy taking country rides in your car?" "Yes," replied Mr. Chuggins, "I ride in the country as much as possible. There isn't so much danger of blocking traffic and getting into trouble with the police." —Washington Star.

Mrs. Smith—"They tell me one of the girls made a faux pas at the cooking class lunch that everybody noticed." Mrs. Comeup (proudly)—"I guess it was my daughter. She can make any of them French things." —Baltimore American.

Architect—"I suppose Mr. Nurich, you received the plans I sent you for the porte-cochere and grand entrance." Nurich—"Yes, and what do you mean by puttin' 'Salute' over the door? That ain't what I made my money in." —Boston Transcript.

## A Masterpiece.

The Hun officer having been taken prisoner offered his gold watch in exchange for his life being spared, and, as he insisted, on it the two "Jacks" who were his captors were nonplussed. However, one of them said that whoever told the biggest lie was to have the watch, and if the prisoner could beat them in story-telling he was to keep the watch. First one Scotie was to tell his yarn, then the German prisoner, and finally the other Scot. The first then started and told a story that was an absurd lie from beginning to end.

Then their Teutonic captive commenced in slow tones: "There—was—once—a—Prussian gentleman—"

"Here," cried the second Scot with resignation, "that settles it! Keep the watch!" —Tit-Bits.

## He Won't Hear It.

At a carnival in a southern town two negro boys stood near the edge of a crowd that assembled to watch a high diver.

As the daring athlete slowly mounted a tall pole to a tiny platform, 60 feet in the air, a brass band on the ground played "Chills and Fever" music.

When the diver left his perch, plunged head downward into a small tank on the ground and "scopped" out on the ground like a flash, the music broke into a lively strain.

The negro boys held their breath until the dare-devil feat had been accomplished, then one said to the other, as they turned to go: "Some time dat bun' am gone play, and dat man ain't a gona heah it." —Chicago Journal.

## Worst Was Feared.

Perhaps the briefest funeral oration ever delivered was that of an old negro of Mississippi over the body of another of his race who had borne a very bad reputation. Lifting his hat and looking down upon the coffin the old fellow said in solemn funeral tones: "Sam Viser, yo' is gone. We hopes yo' is gone whar we 'spects yo' haint." —Boston Transcript.

GREAT OVATIONDespite Pouring Rain Huge Audience  
Greets Evangelist and His Party—  
Stirring Scenes at Reunion Ser-  
vices at Tabernacle.

"Neither God nor Uncle Sam wants slackers," shouted the Rev. L. K. Peacock in the course of a stirring sermon at the reunion services held on Monday evening in the Delaware Avenue Tabernacle and as the evangelist pointed to Old Glory added "And the old flag has never touched the ground yet and praise God it never will!" the huge audience broke into a storm of applause and one man seated away back in the rear of the huge shed leaped on top of his seat and waved his hat above his head until the evangelist with a genial smile shouted "All right Bill sit down it's all right now."

The high esteem in which Evangelist Peacock and his party are held was shown by the huge audience that crowded into the tabernacle despite the pouring rain. The crowd began to enter the shed as the big doors were swung open at 7 o'clock and long before the services started the majority of the seats were occupied.

The evangelist and his party did not enter the tabernacle until after 7:30 o'clock and when they did the audience rose to its feet and applause shook the structure. With Evangelist Peacock was Mr. Warth, the chorister and soloist of the party and Miss Spier in charge of extension work among the women. The only familiar face missing from the party was that of Fred Campbell, the youthful pianist, who is not with the party now but is at his home taking up a course of studies in school. Mr. Campbell's place is filled by William K. Cramer.

It was an interesting sight to watch the expressions on the faces of the huge audience as they waited patiently for the evangelistic party to appear and the services to start, and all over the huge structure the busy hum of voices was heard as old acquaintances were recognized and spoken to. That the services held last winter in the tabernacle had made a decided impression was plainly evident, and it was also evident that those present were glad to resume their familiar places on the pine board benches with the feel of the sawdust under their feet and its sweet odor assailing their nostrils.

Practically every member of the huge chorus choir was seated on the platform before the services started and when Mr. Warth stepped to the platform to lead the song service which preceded the sermon the welcome accorded him was as hearty as that accorded the evangelist. That the choir had not forgotten its training was plainly evident as they swung into the familiar tabernacle hymns, and it was inspiring to hear the huge congregation sing "I am Praying for You" and other tunes made dear the six weeks' evangelistic services.

Mr. Warth for the offertory sang his famous "Swallow Song" and was encircled so heartily that he was forced to respond and did by singing "Shadows." Mr. Warth's voice has lost none of its charm and thrilled the huge crowd as it did during the campaign. His shading was exquisite.

An offering was taken for the benefit of the tabernacle fund and the Rev. P. N. Chase made an announcement that next Sunday evening an open meeting would be held when the first gun in the prohibition campaign would be fired by Mr. Howard who on Sunday spoke in two of the city churches. He will speak on "The Last Hours of a Murderer." The tabernacle hymn books will be used in the song service and the big chorus choir promised to be present and assist in the song service to precede the meeting.

After the song service Monday evening the Rev. P. C. Weyant of the Trinity M. E. Church led in prayer and Evangelist Peacock stepped to the platform. The applause that greeted him lasted for several minutes and as soon as it ceased he began to preach.

The evangelist in the course of his sermon laid emphasis upon the fact that God expects every one to use the talents given them for the upbuilding of the kingdom and advancing the work of Christ in the world. "You will be held responsible," he said "for the way you have used the talents God has given you."

He spoke strongly in favor of prohibition and said that he hoped it would become a war measure. It was up to the church people he said to stamp out the evil. "If you church members walk up and vote with the whiskey bunch, God help you," he shouted.

The evangelist took his text from Nehemiah 4:13 and said that God wanted men of the calibre of Nehemiah in this day and generation. Tremendous applause greeted him when he said that it was up to every true American to see to it that the war was carried to a successful conclusion. Every man, every woman, and every child should be loyal to the president and to the government. "We are going to whip old Germany to a standstill," said the evangelist and again the old shed rocked to the applause. He said that the trouble with this country was there were too many pessimists in it and that if he had his way he would pack them all down to the river and dump them overboard saying as they sank "there goes nothing."

In closing he made a strong appeal for those present to stand back of their pastors, to get into the churches and do active work, to push, not knock, and to all do their bit in the service of our country.

Unlike many of his sermons during the campaign that of last night was exceptionally free of slang, and it made a tremendous appeal.

The reunion was brought to a close with the singing by choir and audience of The Star Spangled Banner.

After the Rev. Dr. C. G. Ellis of the Roundout Presbyterian Church

had pronounced the benediction the huge audience surged forward to shake hands with Evangelist Peacock and the members of his party and bid him God speed.

The reunion services will linger long in the memories of those who were fortunate enough to be present that evening. The evangelistic party left this morning for Jersey City where they resumed the series of tabernacle meetings being held in that city.

## ESOPUS.

Esopus, May 28.—A business meeting of the Epworth League will be held at the home of Mrs. Frank Cole and Mrs. Amy Sheeley on Friday evening of this week, June 1st at 7:30 o'clock. All members are urged to be present.

Mrs. Alonzo Lewis and son Kenneth of Jersey City are spending the week with Mrs. Frank Cole.

Mrs. J. J. Lyons and daughter Gladys went to Poughkeepsie on Friday morning to meet her sister, Mrs. Selah Kimbark of Walden, and together they spent the day visiting friends.

The business meeting of the Ladies' Aid Society held at the home of Mrs. Fred Martin on Wednesday last was well attended. As this was the first meeting of the conference year, the annual election of officers was in order. Following are the names: President, Mrs. M. W. Roberts; first vice president, Mrs. E. Mott; second vice president, Mrs. Alexander Smith; third vice president, Mrs. Emma Dickson; secretary, Mrs. John H. Beaver; assistant secretary, Mrs. Fred Martin; treasurer, Mrs. Charles C. Beaver. After adjournment of the business session, a social hour was enjoyed during which delicious refreshments were served by the hostess, assisted by Mrs. J. Best.

Mrs. Frank Cole went to Kingston on Friday to visit her aunt, Mrs. Elizabeth Keegan, who has been ill with pneumonia. Mrs. Keegan is a widow of the Rev. John Keegan of the New York Conference, who died in 1903. Mrs. Cole also called on Mrs. Peter Ackert (an aunt of Mr. Cole) who is ill in the same city. Both ladies are slowly improving.

Mr. and Mrs. Jacob Fuchs gave a house warming party to a few of their Elster Park friends on Friday evening. Those present were Mr. and Mrs. Gardner, and daughter Catherine, Mr. and Mrs. Bunje, Mr. and Mrs. Howard Burger, Mrs. Kennebeck, Miss Julia Toth, Joseph and Henry Knoll, Mr. Ackerman and Charles Schoonmaker, also Miss Helen Cole of Esopus. During the evening the host and hostess were much surprised and pleased to receive a beautiful cut glass vase as a token of the friendship of their former neighbors. The occasion was also the anniversary of the birth of their daughter Dorothy and she was presented with an immense bouquet of pink carnations and many other birthday gifts.

Louis C. Goodrich and Daniel Linden are the first young men from this village to enter military service. We regret the war which necessitates the taking of these young men from the community, but are proud to record their names on the roll of volunteers. Mr. Goodrich is a son of Mrs. Cornelia Goodrich of Kingston. He

Your Motor's  
Efficiency

You can judge the efficiency of your motor by its flexibility—the eagerness with which it "picks up," the steadiness and smoothness with which it turns over when throttled down.

SOCONY gets the full flexibility out of your car because it is absolutely pure, and every drop powerful.

More than that, SOCONY is always the same—every gallon like every other gallon. That means freedom from the motor troubles which result when today's gasoline doesn't mix with yesterday's carburetor adjustments.

Buy under the So-CO-ny sign. It will insure you a more efficient motor.

OATHS OF OFFICE  
REQUIRED OF ALL

State, County, City and Village Em-  
ployees, Outside of Laborers, Must  
Take Constitutional Oath of Office  
Under New Law—District At-  
torney Traver First to Comply.

Under chapter 574 of the laws of  
1917, which became a law on May  
19th, all persons employed by the  
state or its civil divisions, except in  
the labor class, whose services are  
compensated from the public treas-  
ury, are required to take and file the  
constitutional oath of office within  
thirty days or such person's employ-  
ment terminates automatically.

This provision of the law applies  
not only to all state employees but  
also to those of the county and  
towns and the city of Kingston, who  
are compensated from the public  
treasury, and means that practically  
every office holder in the county,  
town and city of Kingston except  
persons in the labor class must take  
and file the prescribed oath within  
thirty days from the time the law  
went into effect or else lose their job.

The oath required to be taken and  
filed is as follows:

"I do solemnly swear that I will  
support the constitution of the United  
States, and the constitution of the  
state of New York, and that I will  
faithfully discharge the duties of the  
office of \_\_\_\_\_ according to the  
best of my ability.

"Sworn and subscribed before me  
this \_\_\_\_\_ day of \_\_\_\_\_, 1917—  
\_\_\_\_\_  
What the Law Says.

Chapter 574, referred to, adds a  
new section to the civil service law,  
as follows:

"30. Person employed by state or  
its civil divisions and cities to take  
and file constitutional oath. Every  
person hereafter employed by the  
state or any of its civil divisions or  
cities, except in the labor class as  
defined in this chapter, before he shall  
be entitled to enter upon the dis-  
charge of any of his duties, shall  
take and file an oath or affirmation  
in the form and language prescribed  
by the constitution for executive, leg-  
islative and judicial officers, which  
may be administered by any officer  
authorized to take, within the state,  
the acknowledgment of the execution  
of a deed of real property, or by  
an officer in whose office the oath is  
required to be filed. The oath of  
every state employee shall be filed in  
the office of the secretary of state,  
of every employee of a municipal cor-  
poration with the clerk thereof and  
of every other officer, if no place be  
otherwise provided by law, in the office  
of the clerk of the county in which  
he shall reside. Every employee of  
the state and of each of its civil div-  
isions and cities shall employ when  
this act shall take effect, except the  
labor class as defined in this chapter,  
shall take and file such oath within  
thirty days after this act shall take  
effect. The failure of such employ-  
ee to take and file such oath shall  
terminate his employment until such  
oath shall be taken and filed as here-  
in provided."

Two Bills Disapproved.

The committee requested Governor  
Whitman to veto the Policy Patent  
Window Bill (Senate Int. 1478) and  
the Policy Bill (Senate Int. 368)—  
an act to amend the penal law in re-  
lation to practicing law, which seeks  
to remedy the abuse in connection  
with accident cases occasioned by  
professional runners known as "Am-  
bulance Chasers," but touches much  
further in its application.

Illustrated Lecture Tonight.

This evening there will be given a  
stereoscopic lecture on Bagdad, by  
the Rev. Putnam Cady, D. D., at the  
chapel of the Roundout Presbyterian  
Church. The lecture will be given  
under the patronage of the Westing-  
house Guild of the church. Especially  
interesting will be the pictures which  
were taken by Dr. Cady himself. At  
the close of the lecture ice cream and  
cakes will be served.

Attorney General's Opinion.

District Attorney Frederick G.  
Traver, on receipt of the notice,  
wrote to Attorney General Merton E.  
Lewis for his opinion as to the re-  
quirements of persons now holding  
public office who already have taken  
and filed the constitutional oath tak-  
ing and filing a new oath, and today  
received the following letter from  
him:

May 23, 1917.

Hon. Frederick G. Traver, King-

"Dear Sir:—In reply to your letter  
of the 25th inst., I beg to advise you  
that it seems to be the intent of sec-  
tion 39 of chapter 574 of the laws  
of 1917, to require the taking and  
filing of an oath by every person now  
in the service of the state or any  
of its civil divisions thereof whose ser-  
vices are compensated from the public

## BEAR MOVEMENT IN WALL STREET

By Telegraph to The Freeman.  
New York, May 29.—Fifteen thousand shares of U. S. Steel common were dumped into the market at the opening of the stock exchange today at 132 1/4, down 1/4, and within a few minutes the stock dropped to 130 3/4, off 4 1/4 from the high record price established yesterday.

Traders continued their unloading of industrials today, centering on steel shares. In this department losses of a point or more were general. Reading and Union Pacific opened down fractionally.

Steel soon recovered to 131 1/4. Crucible, which held remarkably steady during the break yesterday, broke 1 1/2 to 78 and also made later fractional recovery. Industrial Alcohol opened down 2 at 135 while Marine made an initial recovery of 1/2 to 39 1/2. Coppers were irregular. Bethlehem Steel B stock broke sharply, opening at 152 1/2, off 2 1/2, wiping out part of the loss almost immediately. Lackawanna also rallied, after opening down 1 1/2.

At the end of the first hour 26,000 shares of Steel had been sold and the stock was at 131 1/4. First hour sales for all stocks ran more than a third of a million shares.

### CLINTONDALE.

Clinton, May 29.—The surrounding country is now full of beauty with blossoms, blossoms everywhere. The delicate tints of the pink peach blossoms and the whiteness of the apple blossoms present a beautiful sight indeed. With such scenes one may feel proud of living in the country.

Mrs. M. E. Elmdorf is visiting in the metropolis.

William Coy, Sr., has bought a new car.

James Hull and family, accompanied by Miss Isadora Livingston, our assistant teacher, motored to Monroe the past Saturday.

The entertainment given at the Grange Hall by our graded school was a grand success. Teachers and pupils are the recipients of many words of praise for the training and the presentation of this entertainment. The comic dialogue, "Grown-up Folks," by the primary pupils, provoked much laughter and favorable comment. Following came the musical fairy play, "Midsummer Eve." The song by Dorothy (Miss Hilda Gerald) was very pleasing. Then came the "Will-o'-the-Wisp" with their drill and motion songs. This part was very pretty as presented in the dark, the scene being beautified by Japanese lanterns, which made a very fascinating sight as they performed their march and presented the motion song. Next the Herald introduced Queen Mab and her train. Then followed the song "Hail to Our Queen," which was well rendered. At the close of which the "Little Green Elves" made their appearance. Their marching and motion songs, with Japanese lanterns, came in for their share of well earned praise. Next was a dialogue between Queen Mab and the Little Green Elves, followed by a solo by Queen Mab with chorus. This and the flower song by the Flower Fairies were much appreciated. Then came one of the crowning parts of the play, the March of the Flowers, followed by the Flower Drill. This was highly praised for the manner in which the difficult marches and drills were performed. The fairy play closed with the song, "Day is Dawning," in which the caste took part and was well rendered. The program closed with a patriotic tableau, "The Union Forever." This was one of the most beautiful parts of the evening. The instrumental music rendered by Floyd McKinstry and the Misses Lola Mae Ackhart and Laura Bernard was excellent. It added much to the entertainment and was deserving of the good share of praise which it received. The receipts of the evening, including the sale of ice cream, were \$51.55. This entertainment will be presented again Saturday evening, June 2, in the Clintondale Grange Hall, at 8 o'clock. The proceeds to be given to the Red Cross fund. It is hoped there will be another full house to enjoy this entertainment and aid in a worthy cause.

### ST. REMY.

St. Remy, May 28.—The leader of the C. E. next Sunday night will be Mrs. Harry Ellsworth. Topic, "Confidence and How to Get It." Neh. 6:1-16.

### TILLSON.

Tillson, May 29.—A very pretty wedding took place in the Reformed Church Wednesday afternoon, May 23, at half past three, when Miss Grace Morrishew, only daughter of Mr. and Mrs. Isaac Morrishew, became the bride of Ralph Dewey. The bride was very pretty in white silk and carried a beautiful bouquet of roses and lilies of the valley. The bridesmaid was dressed in pink and carried pink rose buds. The best man was Mr. Root. The ring bearer was Ruth Morrishew, niece of the bride. There were about a hundred guests present. The presents were many and beautiful, consisting of gold, silverware, cut glass, linen and other useful things. After visiting Mr. Dewey's parents, Mr. and Mrs. Fred Dewey, at Canaan, Conn., Mr. and Mrs. Dewey will leave for Chicago, where they will make their home. They will take with them the best wishes of this community for a long and happy married life. As Mrs. Dewey was one of our most beloved young girls and has been organist in the church for over ten years.

Miss Pearl Krom of Amsterdam, N. Y., visited her uncle, Marcus Krom, for a few days the past week.

Harold Martine of Ilion visited his parents, Mr. and Mrs. Clarence Martine, for a couple of weeks.

Miss Elsie Benson visited her friend, Hazel Martine, for a couple of days last week.

The weather is not favorable for planting in this vicinity.

Mrs. Reid was called away for a few days by the death of her mother.

Mrs. C. Harms has gone to the city for a few days.

The Ladies Aid of the Reformed Church will hold an ice cream and strawberry festival in the church hall Friday evening, June 8, for the benefit of the church. There will also be cake and "hot dogs" on sale. Everybody is invited to come and help along.

Little Nellie Avery is recovering after having an operation for the removal of her tonsils and adenoids.

### CLINTONDALE.

Clinton, May 29.—The entertainment given by the graded school in the Grange Hall on Friday evening last will be repeated on Saturday evening next, June 2, in Grange Hall, at 8 o'clock. Proceeds for the Red Cross work.

Miss Ruth Bolde spent a few days last week with her brother, William Bolde, and family in Poughkeepsie.

Mrs. H. Ellis has returned home from a visit with her parents at Kerhonkson.

Mrs. William Coy is the owner of a new automobile.

Mrs. Edward Losier returned to her home in Brooklyn on Thursday last accompanied by Mrs. M. Elmdorf, who will spend a few days with Mrs. Losier.

Mrs. Frank Decker is spending some time in Syracuse with her sister, Mrs. Lillian Wilkin, who has passed through a very serious operation.

Mrs. William York is spending the week with Mrs. Bower in New York city.

William Roe and family of Milton visited his parents, Mr. and Mrs. James Roe, the past week.

Mr. and Mrs. Nathan Ackhart have been entertaining their grandson from West Park the past week. James Hull and family spent Saturday in Monroe as the guests of Mrs. Alice Hull and family.

## DECORATION DAY

Wednesday, DECORATION DAY calls for more than an honoring of heroes and traditions—it calls for a greater realization and the active upholding of those traditions.

Some must go—All must help.

As retailers of men's clothing and furnishings we are going to help by selling merchandise of the highest quality at the lowest possible prices; to give values that are true economy.

The makers of **Kuppenheimer** Clothes have assured us of their help and sincere co-operation in this patriotic service. We are sure our many customers and friends will welcome this policy and think better of us for it.

Haines, of St. Remy, Ulster county, New York, the executrix named therein.

In Testimony Whereof, we have caused the seal of said surrogate's court to be hereunto affixed. Witness, Hon. Walter S. Gill, Surrogate of said county, at the City of Kingston, the 14th day of May, 1917.

WALTER S. GILL,  
Clerk of the Surrogate's Court.

NEW YORK SUPREME COURT, ULSTER COUNTY.—The Home-Seekers' Co-operative Savings and Loan Association of the City of Kingston, N. Y., plaintiff, against John W. Asby and Emma Asby, his wife, Edward J. Collins, as committee of Emma Asby, an incompetent person, The Kingston National Bank and Emma V. Cox, defendants.

To the above named defendants: You are hereby summoned to answer the complaint in this action, and to serve a copy of your answer on the plaintiff's attorney within twenty days after the service of this summons, exclusive of the day of service; and in case of your failure to appear or answer, judgment will be taken against you by default for the relief demanded in the complaint.

Dated, February 20th, 1917.  
FREDERICK STEPHAN, JR.,  
Plaintiff's Attorney,  
Office and P. O. Address,  
No. 21 Broadway,

Husky is the name by which English settlers along the Labrador coast long knew the Eskimos who live there or spend the greater part of the year there fishing and catching seal. The name has been transferred from man to the dog and today it is the common name for the wolflike dog of both the white and the red men of the far Northland.

**Pride a Strange Thing.**  
Pride is a strange thing. For instance, a man would much rather be seen by the younger and prettier set of neighbor women filling up the gasoline tank than emptying the garbage, though the latter act is really much more commendable in that he just does it to help his poor, hardworking wife that much.—Columbus (O.) ## STREET GOSSIP ABOUT TOWN

"The real meaning of Decoration Day will probably be brought closer to the people at large on Wednesday than ever before," said the street corner politician to his friend.

"How is that?" asked the friend. "Generally, and in fact by the majority of people," explained the politician, "the real meaning of the day has been lost, or swallowed up in devoting it to a holiday of pleasure."

"I agree with you there," said the friend. "But now that we are at war with Germany," continued the politician, "it is brought more forcibly to the mind that the mere act of decorating the graves of the old soldiers is more than an act of courtesy, but an act of honoring the men who were willing and who did give up their lives that this country might be saved in past wars."

"Still the children have always decorated the graves of the old soldiers," argued the friend.

"Yes, I know they did," replied the politician, "but the vast majority of people sought pleasure instead of seeking the cemeteries to take part in the exercises, and it is now but a question of time when American lives are laid down on the battlefield abroad in the fight to preserve democracy and righteousness that the meaning of decorating the graves and the setting apart of a day for memorial services will be more fully realized."

"That's so, too," commented the friend. "We are entering now into one of the biggest moments of our history," continued the politician, "and there is no doubt but many a young life will be wiped out that Germany may be subdued."

"You are right," said the friend. "And many a young man fallen on the field of battle in far off Europe will never be restored to the bosom of his family that the last honors may be heaped upon him, but will be forgotten in an unmarked grave," continued the politician, "and as the years of war pass by Memorial Day will be brought closer and closer to the great heart of the people of the country."

"Do you think the war will last many years?" asked the friend. "No," replied the politician. "I don't see how it can for the world will be exhausted if it continues for any length of time."

"How long do you think it will last?" asked the friend. "It will take a year," said the politician, "by the way we are now working to have a sufficient number of men in Europe on the battle front to make any decided dent in the German line the way I figure it and I would not be surprised if it lasted at least two years more."

"I don't agree with you," argued the friend. "Well," replied the politician, "it is only a matter of opinion, and the real question, of course, is how long a time Germany can stand up under the strain."

"Changing the subject," said the friend, "do you expect to march in the big parade Wednesday?"

"Not that I know of," replied the politician, "although I expect to attend the exercises at the cemetery."

"Why are you not going to march?" asked the friend.

"There will be enough without me," replied the politician with a smile.

"But if everyone else said that," argued the friend, "there would be no one in line."

"Are you going to march?" interrupted the politician.

"I don't," replied the friend; "I expect to go fishing."

"Do you think they will raise enough men in the first draft?" asked the friend, changing the subject again.

"You mean will they get enough men between 21 and 31?" asked the politician.

"Yes; that is what I mean," replied the friend.

"It will all depend on how many who register are eligible to exemption to my mind," said the politician.

"Do you think there will be another draft then?" asked the friend.

"I think that the men between 31 and 35 need not shake hands with themselves yet," replied the politician.

"What do you mean?" asked the friend.

"I mean," replied the politician, "that I think there will be another draft if the war promises to be of longer duration than the government has figured."

## NEEDN'T FEAR AN OVERPRODUCTION

State Food Supply Commission Reports on Situation Showing Increase in Area Planted to Alfalfa and Corn—An Intelligent Response.

That farmers need not fear overproduction is emphasized in the report of the New York Food Supply Commission to Governor Whitman. The report says:

"Some farmers have feared overproduction. This fear might be justified were it not for the conditions in Europe. All of Europe is approaching the famine state, and there is no possibility that the farmers of Europe can give the care necessary for the production of the best crops. Large quantities of food are being lost at sea. The world's reserve of food is probably the lowest in history. The grain on farms in the United States on March 1 is 7,000,000, 000 bushels below last year.

"The quantity in elevators is much short of last year. The wheat crop that has just been harvested in New Zealand, Australia and Argentina is estimated at only 70 per cent of last year's crop. The winter wheat of the United States is in poor condition. There need be no fear of overproduction of staple crops.

"The twenty year average yield per acre of all grains, including corn, oats, wheat, rye, barley and buckwheat, in the United States is 1,198 pounds. But in 1901, it was only 913 pounds and in 1912 it was 1,381 pounds. The difference of nearly 40 per cent was due to weather conditions. If as low yields should occur this year as occurred in 1901, conditions would be very serious. Even if as good crops as those of 1902, the best in twenty years result, there would be no chance of low prices for grains."

The report continues:

"The intelligent way in which New York farmers have responded to the demand for more food is shown by the increase in acreage of those crops for which there is the most demand. The total acreage of crops is practically the same as that of eight years ago, but there is 770,000 less acres of grass. This area has been added to the area of grains, fruits and vegetables. In eight years the bean acreage has increased 138 per cent, wheat 45 per cent, fruit 35 per cent. Never before have so many acres of intensive crops been grown in New York. The total acreage of fruits, beans, potatoes, cabbage and other vegetable crops is a third more than it was in 1909."

The following shows the use to be made of farm land in New York state in 1917: Fruit crops, 535,088 acres; potatoes, cabbage, vegetables and miscellaneous crops, 624,613 acres; beans, 276,190 acres; corn, oats, barley, buckwheat, wheat, rye, 2,595,916 acres; corn for silo, 422,867 acres; hay crops, 1,415,590 acres.

The census report shows 2,390,550 acres of tillable pasture land and 1,184,832 acres of pasture land which is not tillable in the state. Of the woodland or land on which timber is standing, 1,975,469 acres are pasture land and 2,018,332 acres are not pasture land.

An increase in corn for the silo is

## PROTECT THE POTATO CROP.

Treatment of the Seed is an Effective Method.

One of the ways advocated for increasing the yield of potatoes this year is to treat the seed in prevent diseases that will otherwise tend to shorten the crop. The state college of agriculture offers the following suggestions in regard to the prevalent diseases and their prevention:

The organisms which cause the diseases are harbored on the seed during the winter and are introduced into the ground at the time of planting. By soaking the tubers in a solution of corrosive sublimate or formaldehyde before the seed is planted, the diseases may be greatly checked or wholly prevented.

**Potato Diseases.**

The four potato diseases likely to be found in New York are partly or wholly controllable by corrosive sublimate. The diseases are:

Scab, which is responsible for most of the rough and generally unmarketable potatoes.

The rhizoctonia stem rot, which is also known as the little-potato disease, causing missing hills, an uneven stand, and hills with nothing but small worthless potatoes. It appears on the seed tubers as small black particles like muck, sticking fast to the surface.

Blackleg, which causes a black stem rot and the early death of the plant, is carried both on and within the seed tubers.

Powdery scab, a disease recently introduced from Europe, is caused by an organism that is carried on affected potatoes and on other tubers which come in contact with them.

**Directions for Treatment.**

The solution may be contained in wooden troughs or tubs, but barrels are more handy; an inch hole fitted with a wooden plug is bored in the side of the barrel near the bottom, and the containers are set upon a platform high enough so that the solution may be drawn off into a tub or pail.

The solution itself is made by adding four ounces of powdered corrosive sublimate to each thirty gallons of water. The powder does not dissolve readily in cold water and should first be dissolved in a quart or more of hot water. A metal vessel should not be used, nor should metal containers be used in any part of the process.

The barrels are filled with untreated potatoes which are covered with the solution, and soaked for one and one-half hours. At the end of this time the solution is drawn off, the potatoes removed and the process repeated for the next lot of untreated potatoes, adding some fresh solution to replace what was taken up by the treated seed. The solution loses strength with each successive treatment; even with the addition of the fresh solution it should be thrown away after the fourth using.

After the potatoes have been treated they should be spread out in shallow piles and allowed to dry.

Corrosive sublimate is a deadly poison. The solution and the treated seed must be kept out of the reach of children and of stock.

**The Use of Formaldehyde.**

Formaldehyde, in the strength of one pint to 40 per cent solution to 30 gallons of water, is effective against scab, but is not wholly effective against rhizoctonia. The seed should be soaked in it for two hours. It is less dangerous to use than the corrosive sublimate and may be used repeatedly without renewal. However, the college says it is not preferable to the corrosive sublimate, which is recommended because of its great effectiveness against rhizoctonia.

More detailed information about dealing with potato diseases may be had by writing to the department of plant pathology, state college of agriculture, Ithaca, New York.

## THE KITCHEN CABINET

The happy state of mind so rarely possessed in which we can say, "I have enough" is the highest attainment of philosophy. Happiness consists not in possessing much, but in being content with what we possess. He who wants little always has enough.

**GOOD THINGS FOR THE TABLE.**

Hamburger steak is so much more palatable when prepared at home, using the tough portions of round steak with a little fat either of suet or fresh pork; add a third of the amount of meat of cooked oatmeal or farina or rice, mix and season well and make into small cakes. A pinch of cloves and nutmeg with a little scraped onion or onion juice improves the flavor. With a meat grinder many nice and palatable dishes may be prepared from the tougher portions of meat.

**Asparagus Canapés.**—Prepare strips of stale bread an inch and a half wide and four inches long; spread with butter on both sides and set into the oven until delicately browned on both sides. When cold and ready to use, spread with salad dressing and place a border of yolk of egg put through a ricer around the toast, and a row of chopped white on the outside of that. In the center lay an asparagus tip cooked, cooled and dried on a cloth. Sprinkle with finely chopped parsley.

**Fresh Fish Chowder.**—Cut cod, haddock, lake fish, pickerel or hana into fillets two inches long, removing the bones, and set aside in a cool place. Cover the head bones and trimmings with cold water and simmer slowly for half an hour. For three pounds of fish, try out two or three ounces of salt pork cut in cubes; in this saute an onion cut in slices, add the liquid in which the bones were cooked, boil up five minutes and strain over the fish. Have ready three cupsful of potato cubes, parboiled in water and drained. Add these to the fish with one tablespoonful of salt and a generous dash of paprika, and let simmer until the potatoes are tender. Add three cupsful of hot milk, a fourth of a cupful of bacon fat or salt pork fryings and serve with crackers and olives.

**Crackers to Serve With Tea.**—Spread small, round crackers with orange marmalade and cover with boiled frosting. Brown quickly in the oven. Jelly or other preserves may be used instead of orange marmalade.

## QUESTIONS RAISED IN DIMICK ESTATE

Judge Clearwater Objects to Payment of Commissions for Executors' Transfer of Property to Themselves as Trustees.

There was a hearing before Surrogate Gill on Monday in the judicial settlement of the intermediate account of the proceedings of Frederick S. Duncan and Ralph N. Voorhis as testamentary trustees of Jeremiah W. Dimick, deceased. Mr. Duncan and Mr. Voorhis had two accountings as executors, and this was upon the transfer of the estate to themselves as trustees from themselves as executors. John H. Hilliard of New York represented the trustees; Judge Clearwater appeared for Mrs. Altha Covey Dimick; Van Etten & Cook for Harcourt Dimick, and Frederick Stephan, Jr., as special guardian.

Judge Van Etten and Mr. Stephan approved the account; Judge Clearwater did not. He objected to a number of items charged against the income for permanent betterments to the real property belonging to the principal estate, such as iron shutters, iron smokestacks, iron fire escapes, concrete floors. Also he raised the question whether the \$87,000 paid out for interest was entirely chargeable against the income account, and objected to the executors receiving \$5,512.44 which they asked as commissions on the transfer of the personal estate from themselves as executors to themselves as trustees. The judge claimed that having accepted the special compensation of two per cent given to each of them given by the will they were debarred from additional compensation upon making the transfer of the principal estate to themselves as trustees.

Surrogate Gill took the papers and reserved decision.

### Rebuilding St. James Street.

The Board of Public Works are plowing up St. James street between Fair street and Broadway, but not with the intention of planting potatoes or other crops. The steam roller is used to do the plowing and after the plow the harrow closely follows but even this leaves a rather stony seed bed. The board will rebuild the street in the same manner as the block between Fair and Wall streets was built last season. For some time St. James street has been in bad shape and the rebuilding will be welcomed by the residents and the traveling public. Work was begun Monday when one side of the street was torn up. As soon as this is fixed the other side will be plowed up and rebuilt.

### Dance at Stone Ridge.

The regular weekly dance will be held at the Stone Ridge Grange Hall Friday evening, June 1. The music will be furnished by "Steve" Miller of Kingston. Refreshments will be for sale.

## You Can Do Your Bit

YOUR COUNTRY CALLS YOU—but the call to all of you is not a call to arms.

To some the part of duty is to stay at home.

What is the duty of you who must stay at home? What can you do to back the men who are fighting that your home may be secure?

## How Can You Serve Your Country?

The needs of the men who are fighting for YOU call for vast funds. Ships must be built. Munitions furnished. Your army and navy must be clothed and fed. It is for YOU the boys in khaki will soon be fighting.

## SAVING AND INVESTING FOR VICTORY AND LIBERTY!

# LIBERTY LOAN OF 1917

It is the duty of every individual, both rich and poor, to subscribe to the Liberty Loan. Subscribe for yourself, your wife and your children. If you are an employer advise your employees to subscribe. Lend them the money if necessary, holding their bonds as security to the loan. Your country needs your help. If you cannot go to the firing line, let your dollars fight for you.

## SUBSCRIBE TO THE BOND!

Not next month, nor next year. Your country needs the money NOW. Remember! Germany will not wait for your convenience. Also remember, if you do not exercise your privilege of lending your money to the United States as a means to victory, Germany may compel you to subscribe to a greater bond issue for the purpose of paying indemnity, which she will levy on the people of the United States if she ever gets a chance. If the war is not prosecuted vigorously by us, Germany may get that chance.

Germany is three thousand miles away. Our allies are keeping her there.

## "WE MUST DO OUR BIT"

Subscribe your share to the Liberty Loan--show the rest of the country that KINGSTON is alive to the gravity of the situation. United States Government Bonds are the safest investment on earth.

By subscribing to the Loan you can help your country and make a splendid investment at the same time.

## BUY NOW!

Do not delay your subscription until you have the money. Two per cent only is payable when you subscribe. The balance is payable as follows:

**JUNE 28, 18 Per Cent    JULY 30, 20 Per Cent    AUGUST 15, 30 Per Cent    AUGUST 30, 30 Per Cent**

For example, one taking a \$100 Bond would pay \$2 down. On June 28th, he must pay \$18 additional; July 30th, \$20 more; on August 15th, \$30; and on August 30th, \$30. This proportion applies to the payment for bonds in any amount.

If the above dates do not fit the convenience of the subscribers, we will loan the money for any payment after the first one, and the subscribers may repay such loans at their convenience.

Liberty Loan Bonds are to be dated June 15, 1917, and will mature on June 15, 1947, but may be paid if the Government so desires, fifteen years after date of issue. They bear interest at the rate of 3½ per cent per annum. Coupon Bonds are issued in denominations of \$50, \$100, \$500 and \$1,000. Bonds registered as to principal and interest will be issued in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000.

Subscriptions will be received by the undersigned:

# WHO IS EXEMPT AND WHO MUST ENROLL FOR SERVICE EXPLAINED BY OFFICIALS

Questions in Relation to Conscription Answered by Government Officials Show That Many Details Have Not Yet Been Arranged--All Must Register.

Washington, May 29.—The following answers to questions submitted by persons living in many different cities were obtained from official sources in Washington.

1. Who must register?

Answer. Every man twenty-one years of age and who has not reached his thirty-first birthday on or before June 5, except officers and enlisted men of the regular army, navy, marine corps, national guard and naval militia now in the Federal service, and officers in the Officers' Reserve Corps and enlisted men in the enlisted reserve corps.

2. When?

Answer. Between 7 a. m. and 9 p. m. June 5, 1917.

3. What if I am prevented from registering June 5th? How many days' grace will I have?

Answer. You must not be prevented from registering June 5. If you are sick you can register by agent or if absent by mail. No days of grace are allowed.

4. What will happen if I have not registered within the specified time?

Answer. You will be liable to punishment for misdemeanor and to imprisonment for one year. And in addition you will be registered.

5. What will happen if I do not tell the truth?

Answer. You will be guilty of a misdemeanor and liable to one year's imprisonment.

6. If I cannot read or write, how shall I register?

Answer. All you have to do is answer the questions that the registrar will ask you and make your mark on the card.

7. I am an American citizen, enlisted under a foreign flag in the present war, now in America on furlough. Must I register?

Answer. Under a strict interpretation of the law, yes.

8. I have a medical discharge from the army. Am I liable to be drafted?

Answer. Yes, but you will probably be dismissed after being drafted.

9. I have no home. Where shall I register?

Answer. At the registration booth in the district where you are June 5.

10. I am a Seventh Day Adventist. Must I register?

Answer. Yes.

11. May I select a branch of service, army, navy or marines, in which I desire to serve?

Answer. No; but after being drafted you can make your preference known and it might be followed.

12. I am a citizen of Germany. Must I register? Am I liable to be drafted?

Answer. Yes, to both questions, although you might be dismissed after being drafted.

13. I am an ex-convict. Am I liable to be drafted?

Answer. Yes, but you would subsequently be dismissed.

14. I am a city policeman. May I claim exemption under the circumstances?

Answer. Regulations governing your case have not been prescribed by the president, but probably will be before the draft goes into effect.

15. I took out my first papers in 1912. Am I liable to draft and must I register?

Answer. You must register. Whether you will be drafted will be determined by subsequent regulations.

16. What moral deficiency exempts one from the service?

Answer. Criminality for one thing. Local civilian boards to be appointed by the president will determine this. No regulations have yet been promulgated.

17. I am employed on a militia naval training. Must I register?

Answer. Yes, unless you are in the federal service.

18. I am paying alimony for the support of my wife and a child of thirteen years. Does this constitute an exemption?

Answer. This will have to be decided by the local board appointed by the president to determine all questions of exemption. The local board will have wide discretion to exempt persons on whom others are dependent for support.

19. Is an army deserter, who has been court-martialed, sentenced and

discharged from prison after having served his sentence, liable to draft?

Answer. Yes, but he would probably be subsequently dismissed.

20. Will any misstatement made during registration make one liable to punishment?

Answer. Yes.

21. Must the registration statement be sworn to?

Answer. No.

22. My parents say I am nineteen years old, but my baptismal record indicates that I am twenty-one. My parents say that I must not register. I fear punishment if I go contrary to their wishes. What shall I do?

Answer. You should state the facts accurately according to the best of your knowledge. If you fail to do so you will be subject to punishment by the courts.

23. I am of German birth, recently naturalized. Must I register, perhaps to fight against my father and two brothers who are in Germany?

Answer—You must register. You will have a subsequent opportunity to present the facts to the local exemption board.

24. I was born in a small town in Minnesota. I have traveled all my life. I will be in Chicago June 5 and New York in July. Where should I register?

Answer—At the registration booth in the district in Chicago in which you are stopping June 5.

25. What will happen to a registration official who knowingly permits his friend to escape registration?

Answer—He will be liable to one year's imprisonment for a misdemeanor.

26. I have signed a contract to labor for a firm for one year. If I am drafted, is the contract abrogated?

Answer—That depends on the local laws and the nature of your contract.

27. If I serve in the army for the period of the war, and it should last six months, can I force the firm which has contracted for my services to reemploy me under the terms of the contract when I receive my discharge?

Answer—No.

28. I have the option of enlisting now in the army for the period of the war or of awaiting voluntary service call. If I am drafted, will it be only for the period of the war?

Answer—Yes. All enlistments and conscription are merely for the period of the war.

29. Do I stand a better chance for promotion if I enlist now than I would if I awaited the draft?

Answer—Competent army officers declare you will have a better chance for promotion by enlisting now.

30. I will be thirty-one the sixteenth of August. Should I register?

Answer—Yes.

31. Will the government strictly enforce the voluntary service act so those who register June 5 may feel assured slacks will be hunted out and summarily dealt with after that period?

Answer—In the opinion of army officers and administration officials, yes.

32. Must a man who has registered and received his registration card exhibit the same when asked to do so? What persons are authorized to demand that the card be shown?

Answer—You should exhibit your registration card if asked to do so by any member of the local registration board or a properly authorized deputy.

33. What is the penalty for refusal to exhibit a registration card?

Answer—No penalty is provided by a federal law, but it will be to your advantage to exhibit your card when asked. Local authorities may inflict penalties.

34. I am an invalid, of voluntary service age. How shall I register?

Answer—By agent.

35. I am 21, but have never voted. Must I register?

Answer—Yes.

36. I will be 21 November 1. Must I register?

Answer—No.

37. May I write out my claims for exemption before going to register?

Answer—You may write them out if you wish, but they will have to be rewritten on the registration card.

38.—If I fail to state my claims for exemption at the period of registration, will I have an opportunity to make the exemption claims at a subsequent period, and how much time will I be given?

Answer—You will have a subsequent opportunity, but it is to your advantage to state your claims now. The time to be given will depend on regulations not yet promulgated.

39.—Who are the final authorities as to exemption—county, state, federal or military?

Answer—The final authority will be a board of civilians to be appointed in each district by the president.

40.—May a person whose claim for exemption has been overruled appeal to the state or federal court?

Answer—The only appeal from the decision of a local exemption board will be to a district board to be appointed by the president. The decision of this district board will be final.

41.—May a person who believes the registration authorities have overlooked certain persons file a complaint, and with whom?

Answer—Yes, with a member of the local registration board.

42.—Will a man whose thirty-first birthday arrives June 5 be compelled to register?

Answer—No.

43.—Must a man awaiting trial on a charge of felony register?

Answer—Yes.

44.—I am a Russian citizen, twenty-eight years old, sole support of my mother in Russia. I have taken my first papers. Am I subject to draft?

Answer. Yes, but the local exemption board will have authority to exempt you.

45.—Is every man living in this country, citizen, alien or declarant, of conscription age, liable to punishment if he fails to register?

Answer—Yes, unless he is in the federal or military service.

46.—Will such person be tried by court martial if he fails to answer?

Answer—He cannot be court martialled, but he will be liable to arrest and imprisonment for misdemeanor.

47.—Is a person who registers June 5 considered to have enlisted, and is he therefore under the military rule of court martial, or does he come under the military rule only after enlisting and taking the oath?

Answer—Mere registration does place you under military rule or make you liable to court martial. No one is under military rule until he has been drafted or is enlisted.

48.—Is there any reserve corps or other service in which one may enlist for service in the United States only?

Answer—No.

49.—How long must one serve who is called to the colors under the voluntary service act?

Answer—Until the end of the war.

50.—What are exemptions likely to be stated in order of importance?

Answer—Employment in the government service; engagement in pursuits necessary to the maintenance of the military establishment, including mining, agriculture and transportation; employment in sea service; physical or moral deficiency; membership in a religious body disbelieving in war.

51.—I am a painter and carpenter subject to draft. Have filled out application blank, sent by labor bureau. Navy Yard, Washington, D. C., and they have informed me I may soon be called for ship construction. Must I register?

Answer—Yes.

52.—Is there any advantage to be gained by enlisting at once without awaiting the draft? If so, what?

Answer—If you enlist without waiting to be drafted, you will gain that much credit in the eyes of your fellow citizens and at the same time will have a better chance for promotion.

53.—How will the drawing of the first names be conducted? Will it be done in secret?

Answer—The drawing will be by lot. The exact method has not been determined. All the names will be probably put in a wheel and taken out as in the selection of jurors.

54.—May any patriotic citizen demand the right to be present at drawing of names to guard against favoritism?

Answer—Anyone may demand that right, but whether or not it will be granted will depend upon the regulations not yet issued.

55.—Complaint has been made, at various times, that the drawing of names from a jury wheel, in secret, was attended by suspicious circumstances. Will the federal government, which has delegated exemptions to the decision of state, county and town authorities, have representatives present to guard against fraud?

Answer—The government is depending for this upon patriotic citizens. No arrangements have been made for federal supervision.

56.—When will the names of those subject to the first call be made public?

Answer—About September 1. The exact date has not been determined.

57.—How will they be made public? By publication in some newspaper, or public posting or simply by notification of the individual called?

Answer—This has not yet been decided. It will probably depend on regulations made by the local authorities.

58.—Will the person notified be notified by mail or by personal visitation?

Answer—Not decided.

59.—If called, when must he report and where?

Answer—His notification will state that.

60.—What if he fails to report?

Answer—He will be arrested and probably be tried by court martial.

61.—Is there any law to compel an employer to re-employ a man who has been called to the colors?

Answer—No.

62.—Is a man who may have become disabled by reason of military service entitled to a pension under existing laws?

Answer—This is a matter of considerable doubt. Congress will probably have declared a new pension law for the present war.

63.—Are his dependents entitled to a pension under the existing laws?

Answer—Same answer as to preceding question.

64.—I am forty years old. May I register if I so desire?

Answer—No.

65.—I am eighteen years old. May I register without consent of my parents?

Answer—No.

66.—I am 35 years old. I look to be 28. I have no birth certificate. My parents are dead. What will constitute satisfactory proof and acceptable proof of my age?

Answer—That will be for the registration board to determine.

67.—If I register, do I immediately become subject to the regulations of the army or navy?

Answer—No, not until you have been drafted.

68.—I have been refused by a life insurance company. Is that a claim for exemption?

Answer—You should state this fact in answer to question No. 12 on the registration card.

69.—I am 19 years old. My father consents to my enlistment, my mother does not. I do not live at home. May I have a guardian appointed who will permit me to register?

Answer—You cannot register if you are only 19.

70.—I am a registered moron, indexed by the Chicago Municipal Psychopathic Institute, but permitted to remain at large. I am of military age. Must I register?

Answer—Yes.

71.—I have been discharged from an insane asylum as cured. Must I register?

Answer—Yes.

72.—I am an army officer with honorable discharge, and am no longer subject to call as a reservist. If drafted, do I enter as a private?

Answer—Yes.

73.—I am an American, employed in Canada. Must I register?

Answer—Yes.

74.—I am a married man. I live apart from my family and contribute nothing to their support. Must I state this?

Answer—There is no law requiring you to state this.

75.—I am married. We expect a baby in August. May I state that I am the sole support of a wife and child?

Answer—All that you have to do is to state the facts.

76.—What religious organizations have creeds which the government will consider in discussing grounds for exemption?

Answer—This matter will have to be determined by the exemption board. No creeds are named in the law. Any member of a religious sect whose creed forbids its members to participate in war is exempt from selection.

77.—I am the sole support of children neither related to me nor adopted by me. Does this constitute the ground for exemption?

Answer—In all probability, no. You can state the case to the exemption board, which will have authority to decide.

78.—I am the sole support of children neither related to me nor adopted by me. Does this constitute the ground for exemption?

Answer—In all probability, no. You can state the case to the exemption board, which will have authority to decide.

## MORE RED CROSS AUXILIARY WORK

So interesting were the reports given by the Red Cross Auxiliary chairman at the meeting held in this city last Saturday, that a brief review of the same is here published.

Mrs. Kaufman, of the Saugerties Auxiliary, reported the organization of the auxiliary Feb. 13, 1917, with a present membership of 495. Members meet for work on Tuesdays. Some 60 or 70 women are working on hospital garments, surgical dressings, comfort bags, bandages, napkins and pillows. On hand, 50 fracture pillows. An entertainment at the home of one member netted \$30. There is sufficient gauze and muslin on hand to occupy the working time of the members during the summer.

Mrs. Wygant of Marlborough reported organization March 19, 1917. Present membership, 112. Meeting for work every Thursday. One first aid class of 16. Sufficient gauze on hand for work during the summer.

Mrs. Tuckerman, Milton, reported organization March 26, 1917, with present membership of 127. \$127.50 has been raised and is now on hand. Meetings held on Tuesday, with 35 or 40 women making surgical dressings, pajamas, night shirts and bandages. Expect to take up work on fracture pillows and operating leggings. Are also arranging for first aid class. Have sufficient gauze, muslin and cotton flannel on hand for work during the summer.

From Mrs. Prindle of New Paltz it was learned, of the organization now having 117 members. Work planned for the entire summer. School children to give snipping parties to get snippings for pillows.

Mrs. Harcourt Pratt of Highland told of a membership of 258. Meet every Monday at high school. Are making hospital garments and surgical dressings and have sufficient material on hand for the summer's work.

Mrs. O. B. Sarre of Ellenville reported 250 members, with working meetings every Wednesday. Have completed one box No. 2; one box No. 3; two boxes No. 4; two boxes No. 6. Have started second box No. 2. During the summer expect to complete 3 boxes every two months. Have had 5 or 6 lectures and will have an entertainment this evening. Have two first aid classes doing excellent work, with five doctors giving their services. Kerhonkson, Wawarsing and Nanaucho receive their supplies from the Ellenville Auxiliary.

Mrs. Hutchings of High Falls told of 137 members, and the interest being taken in the work by the soldiers, who turned in 80 members with the attendant \$50. Have collected \$164 since April. Young girls gave entertainment, netting \$50. Boy Scouts have donated use of hall. Will have a flag raising. Soldiers are planning for minstrel show with one-half of proceeds for Red Cross.

Mrs. Smith, Accord, reported 64 members since organization on April 19. Have completed one box of linen. Have material and some money donated on hand and will work during the summer.

Mrs. Downer of Woodstock told of a membership of 124, with work going on every day. Rooms are open for work every day and on Wednesdays and Saturdays all work together. Several money raising entertainments are planned and there is sufficient material on hand for work throughout the summer.

Mrs. C. C. Hassarouck of Rosendale reported the organization of their auxiliary so recent as to be unable to give report, but plans for money raising entertainments and work during the summer were being perfected.

An auxiliary of 44 members has just been formed at Walkkill. New and renewed members in the city are: Mrs. S. D. Coykendall, Mrs. Harry C. Connelly, Mrs. James Lasher, Mr. and Mrs. John B. Cook, Blinewater, Miss Daisy Myers, Miss Sarah Thompson, Mr. and Mrs. F. D. Dennis, Dr. and Mrs. James R. Nelson, Mrs. M. C. Young, Miss Mary Young.

Red Cross headquarters wish to announce that the blue and gray yarns have arrived, and all who ordered the same for Red Cross knitting are asked to call at headquarters for the same.

The girls of the high school, under the supervision of Miss Elsie Myers have contributed type written copies of directions for knitting the various garments, a much appreciated contribution.

It is expected that there will be some three autoes of Red Cross members in the memorial parade tomorrow.

A full executive committee will be held this evening at supreme court chambers at 8 o'clock, promptly.

**Agri-graphs.**  
A good form of Home Guardian is the home garden.

Lime and legumes make a good prescription for soils lacking nitrogen.

Plowing an acre of land in four minutes seems like a dream but it has

been done with three tractors hitched to 54 plows.

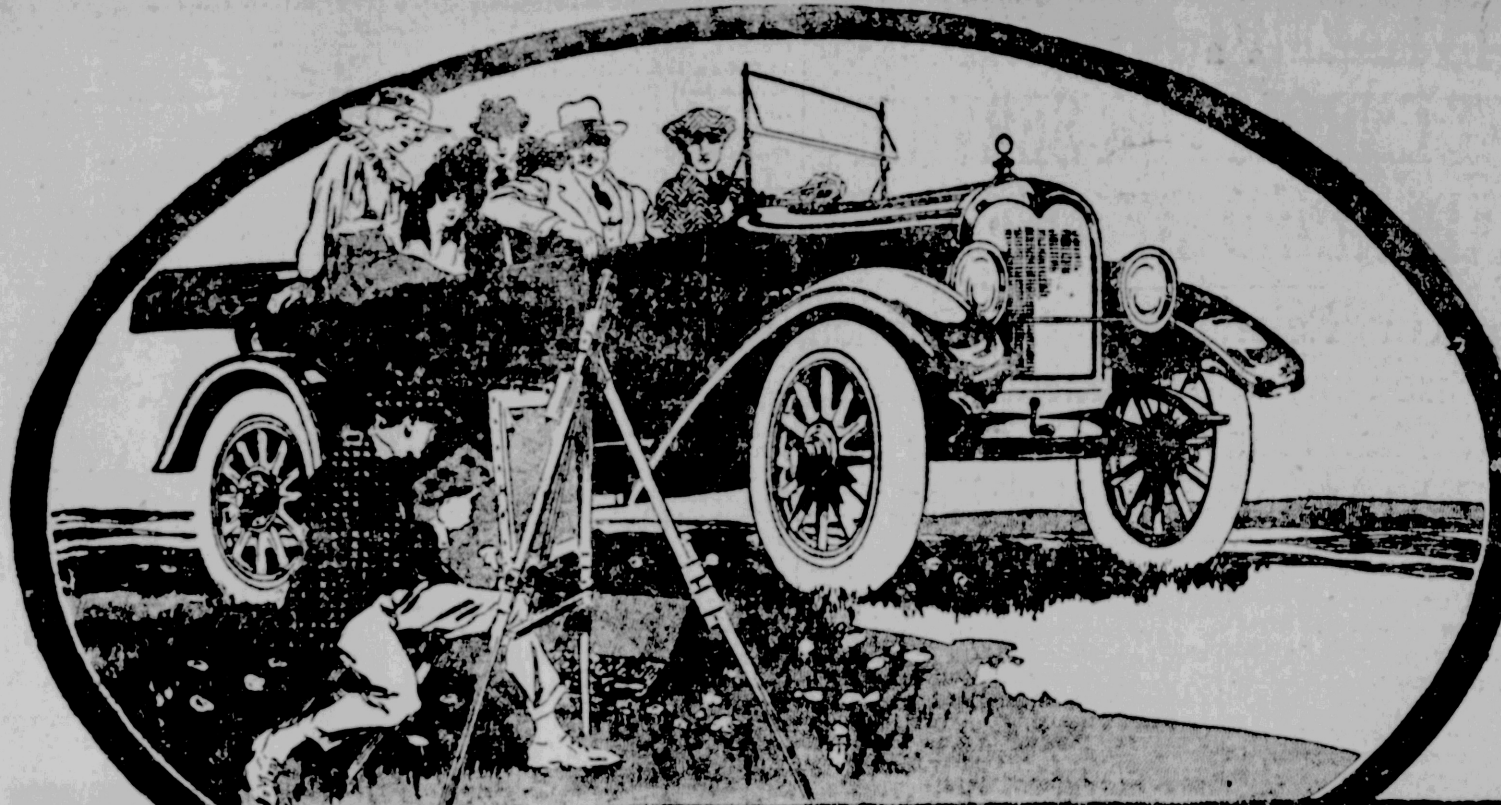

Consuming 3,500 plant lice in 40 minutes may not be a record performance for a bird but the yellow warbler that did it is worth protecting.

"The home garden coupled with the smoke house will beat a grocery store when it comes to furnishing a good farm meal," says the Mississippi A. & M. College.

In checking up the wastes remember the poultry parasites. Lice and mites keep many a pound of meat and many an egg out of production. Put crude oil in the poultry house crevices and around the roosts, and whitewash the whole place.

This is no time to apply emotional remedies to economic troubles. The New York state food supply commission has the facts about labor, seed and fertilizers. Address the commission at Albany or your local county agent.

**Ex-Convict's Dates.**  
The ex-convict, Frank E. Howard, will speak at Grange Hall, Stone Ridge, Wednesday evening, at Port Even Reformed Church Thursday evening at 8 o'clock and at Saugerties at a union meeting in the Congregational Church Friday evening.

## The Maxwell Is Mechanically Right We Waited Four Years To Say That

The makers of the Maxwell spent four years in developing the car. Patient, persistent, scientific refinement of one model—that was the method. An automobile that beats the world for endurance, efficiency, economy—that's the result.

You know the old story about the race between the hare and the tortoise:  
—how the hare skipped about the fields—nibbled clover tops—cut all kinds of capers, trying to "show off";  
—how the tortoise stuck to his job—stayed in the middle of the road—kept on going—and won the race;  
—you know that story and its moral.

### No Experiment in Maxwell Mechanism

Some automobile makers have run around after novelties—like the hare, trying to add untried "improvements" which operate better in advertising than on the car.

But the Maxwell makers held fast to one model, —and when some one made a big how-de-do about his latest novelty, the Maxwell makers strengthened a pin, —or simplified or improved a part of the Maxwell mechanism, —or in other big and little ways developed, refined, perfected the one Maxwell model.

So that, in the end, the Maxwell won by the tortoise method.

### The Maxwell World Endurance Champion

A Maxwell stock car—a duplicate in every detail of your Maxwell—without stopping the motor, traveled 22,022 miles in 44 days and nights,

—and at a rate of 25 miles an hour and 22 miles per gallon of gasoline.

No other vehicle built by human beings ever did anything to compare with that feat.

### The Economy Champion Too

P. D. Armour used to say that his packing houses "utilized all the hog but the squeal."

That's the kind of economy you get in a Maxwell.

Roadster, \$650; Touring Car, \$685; Cabriolet, \$865; Town Car, \$915; Sedan, \$985; completely equipped, including electric starter and lights. All prices f. o. b. Detroit.

### PETER, PETER

Peter, Peter, pumpkin eater,  
Had a cook, but couldn't keep her.  
'Till he bought a Beaver Range.  
Then he saw a wondrous change.

Happy now is Mrs. Peter,  
Keeps her cook, and none can beat her.  
Peter smiles and smokes his pipe,  
Glad when pumpkin pies are ripe.

## BENNY LEONARD'S DEFEAT OF WELSH

Somebody Has at Last Forced Freddy From His Shell and to Defeat at Hands of Harlem Boxer—Victory Was Cleanest One.

By Telegram to The Freeman.

New York, May 29.—The fist world is paying homage to Benny Leonard today.

The little Harlem boxer is the new king of the lightweights, and he promises to become one of the most popular boxers who has ever worn the crown.

Leonard will be lionized because he has what every champion has—a knockout punch. Fred Welsh, who was knocked out in nine rounds by Leonard last night, was an unpopular champion for the reason that he did not knock out his opponents; because he was always content to go ten rounds and collect his end of the receipts. With Leonard it will be different. He has climbed to the heights of the lightweight division mainly because he brushed aside all opposition in a clean and decisive manner. His last few battles, including his victory over Welsh, have been won with knockouts. He is the kind of a champion who commands respect and popularity. He is not a staller.

Leonard's ascendancy to the lightweight throne is one of the best things that could have happened to boxing. He is the sort of a champion who recalls the days of real champions—the days of Gans, Nelson and Volgaist.

That Leonard will play his championship role correctly was made plain today when he said:

"I hope I will prove worthy of the lightweight title, a worthy successor to the great lightweights of other days. I want to go on record as a champion willing to meet all worthy opponents, and I will gladly do so. The only thing that will stop me now will be my country's call. I will enlist if they want me. I will not wait to be drafted."

Leonard won a clean-cut victory over Fred Welsh. There was no fluke about it, and Welsh's claim that he should have been counted out by Referee McPartland borders on the ridiculous. Welsh was dazed and tottering, a victim of a better boy who forced him out of his shell and battered him down. He tried to stall, and failed, because Leonard would not permit it.

When McPartland was finally forced to step in front of Leonard, Welsh was drunk with punishment, a swaying, weak-limbed derelict of better days, and there was not a fan around the ringside who was not with the referee.

It was a great victory for a great and game boxer, and it marked and passing of the craftiest though most unpopular boxer who ever won the lightweight crown.

Boxing fans are speculating today on opponents for Leonard, and the consensus of opinion centers on two boxers—Johnny Kilbane and Charley White.

## QUESTIONS RAISED IN DIMICK ESTATE

Judge Clearwater Objects to Payment of Commissions for Executors' Transfer of Property to Themselves as Trustees.

There was a hearing before Surrogate Gill on Monday in the judicial settlement of the intermediate account of the proceedings of Frederick S. Duncan and Ralph N. Voorhis as testamentary trustees of Jeremiah W. Dimick, deceased. Mr. Duncan and Mr. Voorhis had two accountings as executors and this was upon the transfer of the estate to themselves as trustees from themselves as executors. John H. Hillard of New York represented the trustees. Judge Clearwater appeared for Mrs. Altha Covey Dimick, Van Etten & Cook for Harcourt Dimick and Frederick Stephan Jr. as special guardian.

Judge Van Etten and Mr. Stephan approved the account. Judge Clearwater did not. He objected to a number of items charged against the income for permanent betterments to the real property belonging to the principal estate, such as iron shutters, iron smoke-lacks, iron fire escapes, concrete floors. Also he raised the question whether the \$27,000 paid out for interest was entirely chargeable against the income account, and objected to the executors receiving \$2,312.44 which they asked as commissions on the fee of the personal estate from then they executed to themselves as trustees. The judge claimed that having accepted the special compensation of two per cent given to each of them given by the will they were debarred from additional compensation upon making the transfer of the principal estate to themselves as trustees. Surrogate Gill took the case and reserved decision.

### Rebuilding St. James Street

The Board of Public Works are plowing up St. James street between Fifth street and Broadway, but not with the intention of planting potatoes or other crops. The steam roller is used to do the plowing and after the plow the harrow closely follows but even this leaves a rather stony seed bed. The board will rebuild the street in the same manner as the block between Fifth and Wall streets was built last season. For some time St. James street has been in bad shape and the rebuilding will be welcomed by the resident and traveling public. Work was begun Monday when one side of the street was torn up. As soon as that is done the other side will be plowed up and rebuilt.

### Dance at Stone Lodge

The regular weekly dance will be held at the Stone Ridge Girard Hall Friday evening June 1. The music will be furnished by Steve Miller of Kingston. Refreshments will be for sale.

## SAVING AND INVESTING FOR VICTORY AND LIBERTY!

# LIBERTY LOAN OF 1917

It is the duty of every individual, both rich and poor, to subscribe to the Liberty Loan. Subscribe for yourself, your wife and your children. If you are an employer advise your employees to subscribe. Lend them the money if necessary, holding their bonds as security to the loan. Your country needs your help. If you cannot go to the firing line, let your dollars fight for you.

## SUBSCRIBE TO THE BOND!

Not next month, nor next year. Your country needs the money NOW. Remember! Germany will not wait for your convenience. Also remember, if you do not exercise your privilege of lending your money to the United States as a means to victory, Germany may compel you to subscribe to a greater bond issue for the purpose of paying indemnity, which she will levy on the people of the United States if she ever gets a chance. If the war is not prosecuted vigorously by us, Germany may get that chance.

Germany is three thousand miles away. Our allies are keeping her there.

## "WE MUST DO OUR BIT"

Subscribe your share to the Liberty Loan--show the rest of the country that KINGSTON is alive to the gravity of the situation. United States Government Bonds are the safest investment on earth.

By subscribing to the Loan you can help your country and make a splendid investment at the same time.

## BUY NOW!

Do not delay your subscription until you have the money. Two per cent only is payable when you subscribe. The balance is payable as follows:

**JUNE 28, 18 Per Cent    JULY 30, 20 Per Cent    AUGUST 15, 30 Per Cent    AUGUST 30, 30 Per Cent**

For example, one taking a \$100 Bond would pay \$2 down. On June 28th, he must pay \$18 additional; July 30th, \$20 more; on August 15th, \$30; and on August 30th, \$30. This proportion applies to the payment for bonds in any amount.

If the above dates do not fit the convenience of the subscribers, we will loan the money for any payment after the first one, and the subscribers may repay such loans at their convenience.

Liberty Loan Bonds are to be dated June 15, 1917, and will mature on June 15, 1947, but may be paid if the Government so desires, fifteen years after date of issue. They bear interest at the rate of 3½ per cent per annum. Coupon Bonds are issued in denominations of \$50, \$100, \$500 and \$1,000. Bonds registered as to principal and interest will be issued in denominations of \$100, \$500, \$1,000, \$5,000, \$10,000, \$50,000 and \$100,000.

# WHO IS EXEMPT AND WHO MUST ENROLL FOR SERVICE EXPLAINED BY OFFICIALS

Questions in Relation to Conscription Answered by Government Officials Show That Many Details Have Not Yet Been Arranged—All Must Register.

Washington, May 28.—The following answers to questions submitted by persons living in many different cities were obtained from official sources in Washington.

1 Who must register?  
Answer: Every man twenty-one years of age and who has not reached his thirty-first birthday on or before June 5 except officers and enlisted men of the regular army, navy, marine corps, national guard and naval militia now in the Federal service, and officers in the Officers' Reserve Corps and enlisted men in the enlisted reserve corps.

2 When?  
Answer: Between 7 a. m. and 9 p. m. June 5, 1917.

3 What if I am prevented from registering June 5th? How many days' grace will I have?  
Answer: You must not be prevented from registering June 5. If you are sick you can register by agent, or if absent by mail. No days of grace are allowed.

4 What will happen if I have not registered within the specified time?  
Answer: You will be liable to punishment for misdemeanor and to imprisonment for one year. And in addition you will be registered.

5 What will happen if I do not tell the truth?  
Answer: You will be guilty of a misdemeanor and liable to one year's imprisonment.

6 If I cannot read or write, how shall I register?  
Answer: All you have to do is answer the questions that the registrar will ask you and make your mark on the card.

7 I am an American citizen, enlisted under a foreign flag in the present war, now in America on furlough. Must I register?  
Answer: Under a strict interpretation of the law, yes.

8 I have a medical discharge from the army. Am I liable to be drafted?  
Answer: Yes, but you will probably be dismissed after being drafted.

9 I have no home. Where shall I register?  
Answer: At the registration booth in the district where you are June 5.

10 I am a Seventh Day Adventist. Must I register?  
Answer: Yes.

11 May I select a branch of service, army, navy or marines, in which I desire to serve?  
Answer: No, but after being drafted you can make your preference known and it might be followed.

12 I am a citizen of Germany. Must I register? Am I liable to be drafted?  
Answer: Yes, to both questions, although you might be dismissed after being drafted.

13 I am an ex-convict. Am I liable to be drafted?  
Answer: Yes, but you would subsequently be dismissed.

14 I am a city policeman. May I claim exemption under the circumstances?  
Answer: Regulations governing your case have not been prescribed by the president, but probably will be before the draft goes into effect.

15 I took out my first papers in 1912. Am I liable to draft and must I register?  
Answer: You must register. Whether you will be drafted will be determined by subsequent regulations.

16 What moral deficiency exempts one from the service?  
Answer: Criminality for one thing. Local civilian boards to be appointed by the president will determine this. No regulations have yet been promulgated.

17 I am employed on a militia naval training. Must I register?  
Answer: Yes, unless you are in the Federal service.

18 I am paying alimony for the support of my wife and a child of thirteen years. Does this constitute an exemption?  
Answer: This will have to be decided by the local board appointed by the president to determine all questions of exemption. The local board will have wide discretion to exempt persons on whom others are dependent for support.

19 Is an army deserter, who has been court-martialed, sentenced and

discharged from prison after having served his sentence, liable to draft?  
Answer: Yes, but he would probably be subsequently dismissed.

20 Will any misstatement made during registration make one liable to punishment?  
Answer: Yes.

21 Must the registration statement be sworn to?  
Answer: No.

22 My parents say I am nineteen years old, but my baptismal record indicates that I am twenty-one. My parents say that I must not register. I fear punishment if I go contrary to their wishes. What shall I do?  
Answer: You should state the facts accurately according to the best of your knowledge. If you fail to do so you will be subject to punishment by the courts.

23 I am of German birth, recently naturalized. Must I register, perhaps to fight against my father and two brothers who are in Germany?  
Answer: You must register. You will have a subsequent opportunity to present the facts to the local exemption board.

24 I was born in a small town in Minnesota. I have traveled all my life. I will be in Chicago June 5 and New York in July. Where should I register?  
Answer: At the registration booth in the district in Chicago in which you are stopping June 5.

25 What will happen to a registration official who knowingly permits his friend to escape registration?  
Answer: He will be liable to one year's imprisonment for a misdemeanor.

26 I have signed a contract to labor for a firm for one year. If I am drafted, is the contract abrogated?  
Answer: That depends on the local laws and the nature of your contract.

27 If I serve in the army for the period of the war, and it should last six months, can I force the firm which has contracted for my services to reemploy me under the terms of the contract when I receive my discharge?  
Answer: No.

28 I have the option of enlisting now in the army for the period of the war or of awaiting voluntary service call. If I am drafted, will it be only for the period of the war?  
Answer: Yes. All enlistments and conscriptions are merely for the period of the war.

29 Do I stand a better chance for promotion if I enlist now than I would if I awaited the draft?  
Answer: Competent army officers declare you will have a better chance for promotion by enlisting now.

30 I will be thirty-one the sixteenth of August. Should I register?  
Answer: Yes.

31 Will the government strictly enforce the voluntary service act so those who register June 5 may feel assured exonerated will be hunted out and summarily dealt with after that period?  
Answer: In the opinion of army officers and administration officials, yes.

32 Must a man who has registered and received his registration card exhibit the same when asked to do so? What persons are authorized to demand that the card be shown?  
Answer: You should exhibit your registration card if asked to do so by any member of the local registration board or a properly authorized deputy.

33 What is the penalty for refusal to exhibit a registration card?  
Answer: No penalty is provided by a federal law, but it will be to your advantage to exhibit your card when asked. Local authorities may inflict penalties.

34 I am an invalid, of voluntary service age. How shall I register?  
Answer: By agent.

35 I am 21, but have never voted. Must I register?  
Answer: Yes.

36 I will be 21 November 1. Must I register?  
Answer: No.

37 May I write out my claims for exemption before going to register?  
Answer: You may write them out if you wish, but they will have to be rewritten on the registration card.

38 If I fail to state my claims for exemption at the period of registration, will I have an opportunity to make the exemption claims at a subsequent period, and how much time will I be given?  
Answer: You will have a subsequent opportunity, but it is to your advantage to state your claims now. The time to be given will depend on regulations not yet promulgated.

39 Who are the final authorities as to exemption—county, state, federal or military?  
Answer: The final authority will be a board of civilians to be appointed in each district by the president.

40 May a person whose claim for exemption has been overruled appeal to the state or federal court?  
Answer: The only appeal from the decision of a local exemption board will be to a district board to be appointed by the president. The decision of this district board will be final.

41 May a person who believes the registration authorities have overlooked certain persons file a complaint, and with whom?  
Answer: Yes, with a member of the local registration board.

42 Will a man whose thirty-first birthday arrives June 5 be compelled to register?  
Answer: No.

43 Must a man awaiting trial on a charge of felony register?  
Answer: Yes.

44 I am a Russian citizen, twenty-eight years old, sole support of my mother in Russia. I have taken my first papers. Am I subject to draft?  
Answer: Yes, but the local exemption board will have authority to exempt you.

45 Is every man living in this country, citizen, alien or declarant, of conscription age, liable to punishment if he fails to register?  
Answer: Yes, unless he is in the federal or military service.

46 Will such person be tried by court martial if he fails to answer?  
Answer: He cannot be court martialled, but he will be liable to arrest and imprisonment for misdemeanor.

47 Is a person who registers June 5 considered to have enlisted, and is he therefore under the military rule of court martial, or does he come under the military rule only after enlisting and taking the oath?  
Answer: Mere registration does place you under military rule or make you liable to court martial. No one is under military rule until he has been drafted or is enlisted.

48 Is there any reserve corps or other service in which one may enlist for service in the United States only?  
Answer: No.

49 How long must one serve who is called to the colors under the voluntary service act?  
Answer: Until the end of the war.

50 What are exemptions likely to be stated in order of importance?  
Answer: Employment in the government service; engagement in pursuit of necessary to the maintenance of the military establishment, including mining, agriculture and transportation; employment in sea service; physical or moral deficiency; membership in a religious body disbelieving in war.

51 I am a painter and cartoonist subject to draft. Have filled out application blank, sent by labor bureau, Navy Yard, Washington, D. C., and they have informed me I may soon be called for ship construction. Must I register?  
Answer: Yes.

52 Is there any advantage to be gained by enlisting at once without awaiting the draft? If so, what?  
Answer: If you enlist without waiting to be drafted, you will gain that much credit in the eyes of your fellow citizens and at the same time will have a better chance for promotion.

53 How will the drawing of the first names be conducted? Will it be done in secret?  
Answer: The drawing will be by lot. The exact method has not been determined. All the names will be probably put in a wheel and taken out as in the selection of jurors.

54 May any patriotic citizen demand the right to be present at drawing of names to guard against favoritism?  
Answer: Anyone may demand that right, but whether or not it will be granted will depend upon the regulations not yet issued.

55 Complaint has been made, at various times, that the drawing of names from a jury wheel, in secret, was attended by suspicious circumstances. Will the federal government, which has delegated exemptions to the decision of state, county and town authorities, have representatives present to guard against fraud?  
Answer: The government is depending for this upon patriotic citizens. No arrangements have been made for federal supervision.

56 When will the names of those subject to the first call be made public?  
Answer: About September 1. The exact date has not been determined.

57 How will they be made public?  
Answer: By publication in some newspapers, or public postage or simply by notification of the individual called.

58 Will the person notified be notified by mail or by personal visitation?  
Answer: Not decided.

59 If called, when must he report, and where?  
Answer: His notification will state that.

60 What if he fails to report?  
Answer: He will be arrested and probably be tried by court martial.

61 Is there any law to compel an employer to re-employ a man who has been called to the colors?  
Answer: No.

62 Is a man who may have become disabled by reason of military service entitled to a pension under existing laws?  
Answer: This is a matter of considerable doubt. Congress will probably have declared a new pension law for the present war.

63 Are his dependents entitled to a pension under the existing laws?  
Answer: Same answer as to preceding question.

64 I am forty years old. May I register if I so desire?  
Answer: No.

65 I am eighteen years old. May I register without consent of my parents?  
Answer: No.

66 I am 35 years old. I look to be 38. I have no birth certificate. My parents are dead. What will constitute satisfactory proof and acceptable proof of my age?  
Answer: That will be for the registration board to determine.

67 If I register, do I immediately become subject to the regulations of the army or navy?  
Answer: No, not until you have been drafted.

68 I have been refused by a life insurance company. Is that a claim for exemption?  
Answer: You should state this fact in answer to question No. 12 on the registration card.

69 I am 19 years old. My father consents to my enlistment, my mother does not. I do not live at home. May I have a guardian appointed who will permit me to register?  
Answer: You cannot register if you are only 19.

70 I am a registered moron, inducted by the Chicago Municipal Psychopathic Institute, but permitted to remain at large. I am of military age. Must I register?  
Answer: Yes.

71 I have been discharged from an insane asylum as cured. Must I register?  
Answer: Yes.

72 I am an army officer with honorable discharge, and am no longer subject to call as a reservist. If drafted, do I enter as a private?  
Answer: Yes.

73 I am an American, employed in Canada. Must I register?  
Answer: Yes.

74 I am a married man. I live apart from my family and contribute nothing to their support. Must I state this?  
Answer: There is no law requiring you to state this.

75 I am married. We expect a baby in August. May I state that I am the sole support of a wife and child?  
Answer: All that you have to do is to state the facts.

76 What religious organizations have creeds which the government will consider in discussing grounds for exemption?  
Answer: This matter will have to be determined by the exemption board. No creeds are named in the law. Any member of a religious sect whose creed forbids its members to participate in war is exempt from selection.

77 I am the sole support of children neither related to me nor adopted by me. Does this constitute the ground for exemption?  
Answer: In all probability, no. You can state the case to the exemption board, which will have authority to decide.

Butchers, Bakers, Dairymen

General Food Supply Industries and their Employees

You have been accused of putting up the prices of food.

While the prices of food products have gone up tremendously, it is because the demand is greater than the supply.

All commodities have risen in price one hundred to three hundred per cent.

Take the Bronx alone. In 1900 there were only 200,000 to feed. To-day there are 700,000 people in the Bronx. See how it is growing.

See the increase in demand in this one section. That is why food has gone up. That is why real estate in the Bronx will go up; and why you should buy real estate along the new Transit Lines.

Seven thousand million dollars will be spent among the people of the United States in the next year, to pay for war supplies.

There is bound to be a large demand for real estate; it must increase like other commodities.

NOW is the psychological time for you to take your surplus earnings and invest them in real estate, particularly along the new White Plains extension of the Subway.

**LAWS OF NEW YORK—By Authority.**  
CHAP. 112.  
**AN ACT TO amend the county law, in relation to quarterly meetings of boards of supervisors.**

Became a law April 2, 1917, with approval of the Governor. Passed, without amendment, by the Senate and Assembly, and became effective June 1, 1917.

The People of the State of New York, represented in Senate and Assembly, do hereby enact as follows:

Section 1. Chapter sixteen of the laws of nineteen hundred and nine, entitled "An act in relation to counties constituting consolidated tax districts," and chapter twenty-six of the laws of nineteen hundred and thirteen, amending therein a new section, to be section forty-two, shall be amended to read as follows:

§ 10-a. Quarterly meetings.—The board of supervisors of any county may, by resolution, determine to hold, in addition to the annual meeting, four regular quarterly meetings on the second Monday of each month of February, May, August and November, at such place or places as the board of supervisors may designate; and which shall have then accrued. Whenever a board of supervisors of any county shall have audited any account, claim or demand against the county at a meeting of the board, the board, at its next meeting, it shall certify the aggregate of sums so audited and allowed to the clerk, treasurer of the county. And a board of supervisors may, concurrently therewith, authorize the county treasurer to borrow upon the faith and credit of the county a sum of money sufficient to pay the aggregate amount of the accounts so audited and allowed to the clerk, treasurer of the county. No such loan shall be negotiated for a longer period than twelve months.

§ 13. This act shall take effect immediately after the expiration of sixty days after the date of its passage by the Senate and Assembly.

I have compared the preceding with original law on file in this office, and hereby certify that the same is a correct transcript therefrom and of the whole said original law.

FRANCIS M. HUGO,  
Secretary of State.

**LAWS OF NEW YORK—By Authority.**  
CHAP. 113.  
**AN ACT to amend the county law, in relation to the payment of transfer tax, and the discount and interest thereon.**

Became a law April 3, 1917, with approval of the Governor. Passed, without amendment, by the Senate and Assembly, and became effective June 1, 1917.

The People of the State of New York, represented in Senate and Assembly, do hereby enact as follows:

Section 1. Section two hundred and twenty-five of the laws of nineteen hundred and eleven, and chapter six of the laws of nineteen hundred and nine, entitled "An act in relation to taxation, constituting chapter thirty of the consolidated laws," is hereby amended to read as follows:

§ 23. Discount and Interest.—If tax is paid within six months from the accrual thereof, a discount of five per centum shall be allowed and deducted from the full amount of the tax. If interest shall be charged and collected thereon at the rate of ten per centum annum from the time the tax becomes due until the same is paid, unless by reason of claims made and unpaid for eighteen months from the accrual thereof, no discount shall be given. In case of unavoidable cause of delay, such tax shall not be determined and paid as herein provided, in which case interest at the rate of six per centum per annum shall be added to the full amount of the tax thereafter until the cause of such delay is removed, after which (ten per centum) shall be charged; provided, however, that over the payment of any tax imposed by this section, no refund shall be made. The user has been heretofore or shall be after tendered, through inadvertence the state comptroller within the period time before interest attaches to the tax, if the tax is paid within the term of the proper county within ten days thereafter, the county treasurer, directed so to do by the state comptroller, may accept in full for the state tax which he has received, the tax imposed by this section of the tax law.

§ 4. This act shall take effect immediately after the expiration of sixty days after the date of its passage by the Senate and Assembly.

I have compared the preceding with original law on file in this office, and hereby certify that the same is a correct transcript therefrom and of the whole said original law.

FRANCIS M. HUGO,  
Secretary of State.

**LAWS OF NEW YORK—By Authority.**  
CHAP. 114.  
**AN ACT to amend the poor law, in relation to payment to the chairman of the board of expenditures of a reasonable fee for his services.**

Became a law April 3, 1917, with approval of the Governor. Passed, without amendment, by the Senate and Assembly, and became effective June 1, 1917.

The People of the State of New York, represented in Senate and Assembly, do hereby enact as follows:

Section 1. Section eighty of chapter twenty-six of the laws of nineteen hundred and eleven, and chapter six of the laws of nineteen hundred and nine, entitled "An act in relation to taxation, constituting chapter thirty of the consolidated laws," as amended, chapter one hundred and two of the laws of nineteen hundred and ten, and chapter three of the laws of nineteen hundred and fifteen, is hereby amended to read as follows:

§ 80. Relief of soldiers, sailors and marines, and their families.—No poor or indigent soldier or sailor or marine who served in the military or naval service of the United States and who has been honorably discharged from such service, his family nor the families of any person deceased shall be sent to the almshouse, or to any other institution provided for at their homes in the city or town where they may reside, so far as practicable, provided such soldier, sailor or marine or the families of those deceased persons have been residents of the state for some years; and the proper ruling board of such city or town or in counties where the poor are a charge, the superintendent, if but one superintendent of the poor, or superintendents of the poor, or visiting board in those counties, shall visit such sum or sums of money as he considers necessary to be drawn upon by commander and quartermaster of the port at the Grand Army of the Republic, or the expenditures of relief to the War Veterans of the city or town, or upon the written recommendation of a relief committee of such port or town, if there be no post or camp in a county, or if there be a post or camp, the request should be granted, upon the request of the commander and quartermaster and recommendation of the relief committee of a Grand Army post, or of the expenditures of relief to the War Veterans in the nearest town or city, to town or city requested to so furnish relief, and such written request and recommendation shall be a sufficient authority for the expenditures of relief to the auditing board of such city or town in those counties where the poor are a county charge; the superintendent if one, or superintendents of the poor, or visiting board in those counties, also, shall be the chairman of the relief committee of such Grand Army post or camp of the United Spanish War Veterans, a reasonable sum for his services connection therewith.

§ 2. This act shall take effect immediately after the expiration of sixty days after the date of its passage by the Senate and Assembly.

I have compared the preceding with original law on file in this office, and hereby certify that the same is a correct transcript therefrom and of the whole said original law.

## BENNY LEONARD'S DEFEAT OF WELSH

Somebody Has at Last Forced Freddy From His Shell and to Defeat at Hands of Harlem Boxer—Victory Was Clean-cut One.

By Telegram to The Freeman.

New York, May 29.—The little world is paying homage to Benny Leonard today.

The little Harlem boxer is the new king of the lightweights, and he promises to become one of the most popular boxers who has ever worn the crown.

Leonard will be lionized because he has what every champion has—a knockout punch. Fred Welsh, who was knocked out in nine rounds by Leonard last night, was an unpopular champion for the reason that he did not knock out his opponents, because he was always content to go ten rounds and collect his end of the receipts. With Leonard it will be different. He has climbed to the heights of the lightweight division mainly because he brushed aside all opposition in a clean and decisive manner. His last few battles, including his victory over Welsh, have been won with knockouts. He is the kind of a champion who commands respect and popularity. He is not a stammer.

Leonard's ascendancy to the lightweight throne is one of the best things that could have happened to boxing. He is the sort of a champion who recalls the days of real champions—the days of Gans, Nelson and Wolcott.

That Leonard will play his championship role correctly was made plain today when he said:

"I hope I will prove worthy of the lightweight title a worthy successor to the great lightweights of other days. I want to go on record as a champion willing to meet all worthy opponents, and I will gladly do so. The only thing that will stop me now will be my country's call. I will enlist if they want me. I will not wait to be drafted."

Leonard won a clean-cut victory over Fred Welsh. There was no fluke about it, and Welsh's claim that he should have been counted out by Referee McPartland hangs on the ridiculous. Welsh was dazed and tottering, a victim of a better boy who forced him out of his shell and battered him down. He tried to stall, and failed, because Leonard would not permit it.

When McPartland was finally forced to step in front of Leonard, Welsh was drunk with punishment, a swaying, weak-kneed derelict of better days, and there was not a fan around the ringside who was not with the referee.

It was a great victory for a great and game boxer, and it marked the passing of the earliest though most unpopular boxer who ever won the lightweight crown.

Boxing fans are speculating today on opponents for Leonard, and the consensus of opinion centers on two boxers—Johnny Kilbane and Charlie White.

The Memorial Day parade will start promptly at 8 o'clock Wednesday morning. They will assemble in front of Public School No. 13, Barnard's Drum Corps of Kingston, members of G. A. R. in carriage, school children in Districts No. 1, 12 and 14, Esopus Council, No. 42, Sons and Daughters of Liberty, Hope Lodge, No. 65, Knights of Pythias, Port Ewen Lodge, No. 556, I. O. O. F., patriotic citizens. Address at Pythian Hall by the Rev. Homer L. Sheffer. Recitations by children of the different schools, songs. It is most earnestly requested that the citizens of our beautiful village participate in this parade on this central Memorial Day. Show your colors. If ever the Stars and Stripes stand for freedom, justice and truth, it is now. Do not hide your light under a basket but come boldly forward and join the loyal citizens, tried and true.

On the evening of Decoration Day every one of our townspeople, with American feeling should turn to the Reformed Church and listen to the address of Attorney Frank W. Brooks, to be given at 8 o'clock. Mr. Brooks is a well known orator and has made an extensive study of patriotic lives, and no one should miss this opportunity to hear him. The Brotherhood of the Reformed Church will welcome you and try to entertain you in the way the spirit of the day demands. Refreshments will be on both before and after the address of Mr. Brooks.
